## POINT-TO-POINT WAN ETHERNET SERVICE

**E-Rate Yr 20 (2017-2018)**

**RFP # 2017-203**

## QUESTIONS AND ANSWERS

**March 17, 2017**

Q: Would the District consider an alternate/optional solution of a bidder delivering one end of the Point-to-Point connection (that meets the District's requirements) but at an alternate location than the District Office but is within the District? Then the District could utilize their existing WAN connection from that NEW point back to the District Office.

A: Not at this time, the RFP specifically states the service address for delivery of services.

Q: Would the district accept another solution that would include some one time installation charges so we could bring down the monthly charges?

A: Per the RFP documents, you must include the following:

“Costs by speed in deliverable increments between 1,000 Mbps to 10,000 Mbps

Installation Costs

Hardware Costs

Circuit Costs

Other Items needed to complete project”
