About the Rocklin Education Excellence Foundation

Founded in 2008, the Rocklin Education Excellence Foundation (REEF) is a non-profit organization dedicated to student enrichment within the Rocklin Unified School District. The Foundation provides financial and community resources to the schools of the Rocklin Unified School District to enhance and promote educational excellence.

REEF is governed by a Board of Directors composed of educators, parents and leaders from throughout the Rocklin community. The Board of Directors makes decisions and undertakes action consistent with its mission. Currently, there are 17 board members.

While REEF and the District are independent of one another, REEF proudly supports the RUSD and its schools and staff who are responsible for educating Rocklin students. While RUSD trustees, administrators and teachers serve on REEF's Board of Directors, RUSD does not direct or control the operations of REEF.
