# Citrix client software installation

With support no longer available for the older remote access server, we will move to a newer remote access server.
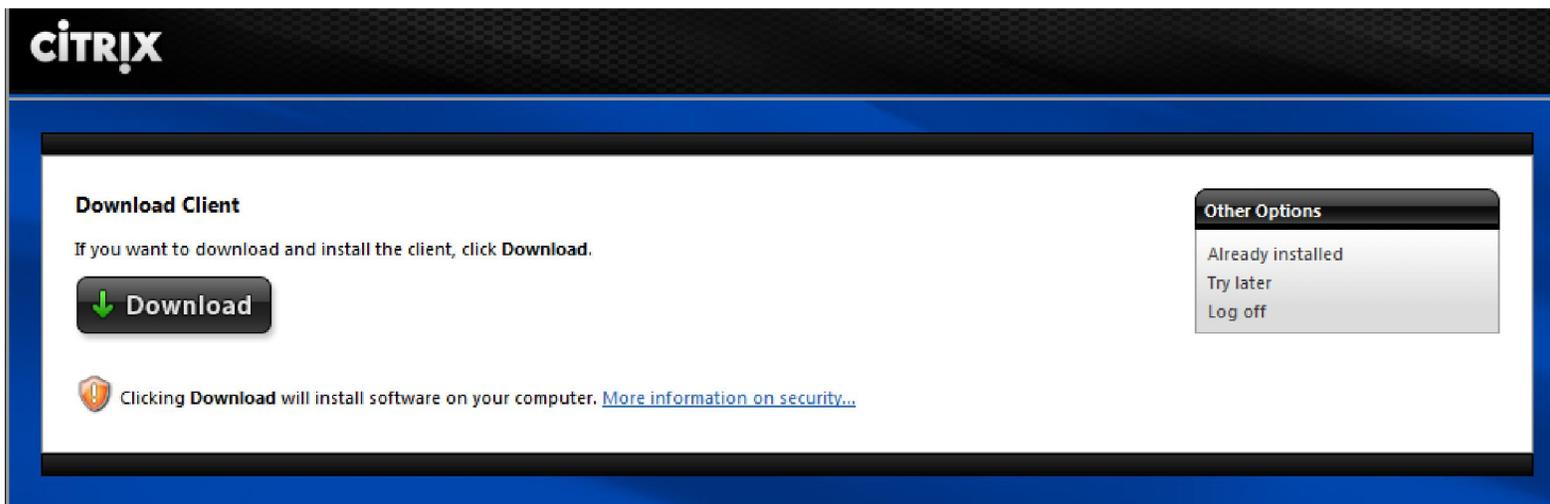

First we need to download the Citrix Receiver

In the URL section, go to http://www.rocklinusd.org/remote

You will be redirected to the remote login page

Log in. If you haven't installed the Citrix plugin, you will see this page. Click on Download.

NOTE: Sometimes after you have already loaded the client, the Download screen returns. Click on Already installed under Other Options if this happens

This will take you to Citrix's home page. Click on Citrix Receiver

If you **DO NOT** have a Windows computer, choose the first option "Where can I download Citrix Receiver on other platforms and devices?"

If you have a Windows computer, click on Download Receiver 4.4.1000 for Windows (or whatever is current)

For the Windows computer, click on Save File

Opening CitrixReceiver.exe

You have chosen to open:

   CitrixReceiver.exe

      which is: Binary File (46.2 MB)

      from: https://downloadplugins.citrix.com

Would you like to save this file?

                       [Save File]   [Cancel]
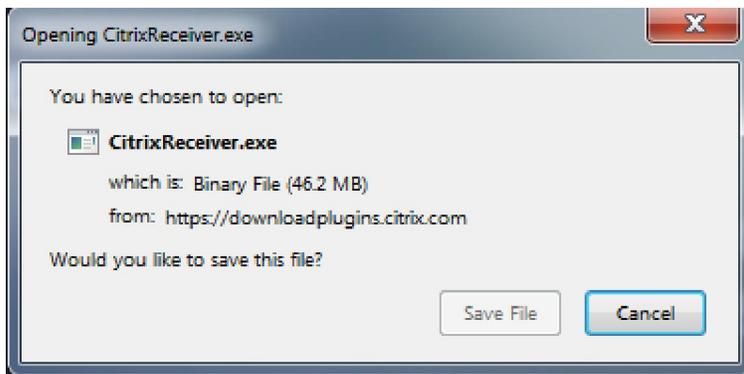

Save the file to somewhere where you will remember. The Downloads library is the default for some computers.
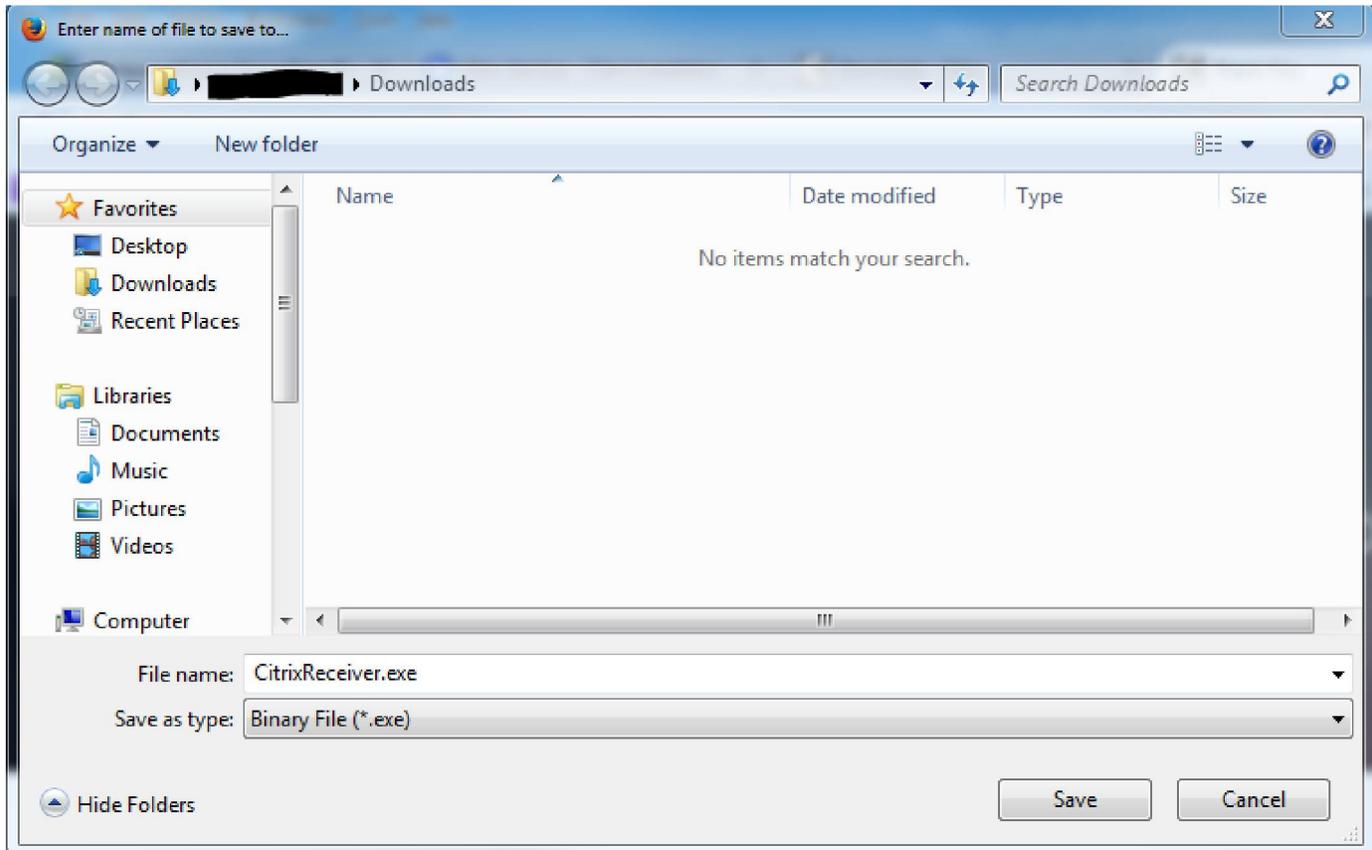

Now we'll install the program.
In the directory you saved the file, Double Click on the CitrixReceiver.exe program. Click on Yes to install

Name	Date modified	Type	Size
CitrixReceiver.exe	7/8/2016 7:22 AM	Application	47,351 KB

User Account Control

Do you want to allow the following program to make changes to this computer?

Program name: CitrixReceiver
Verified publisher: **Citrix Systems, Inc.**
File origin: Downloaded from the Internet

Click on Start

Citrix Receiver

Welcome to Citrix Receiver

Citrix Receiver installs software that allows access to virtual applications that your organization provides, including software that allows access to the applications that use your browser.

- Allow applications access to your webcam and microphone.
- Allow applications to use your location.
- Allow access to local applications authorized by your company.
- Save your credential to log on automatically.

Click Start to set up and install Citrix Receiver on your computer.

Citrix Receiver

Enable Single Sign-on

When enabled, single sign-on remembers your credentials for
this device, so that you can connect to other Citrix applications
without having to log on each time. You should do this only if
your IT administrator has instructed you to. This will take effect
the next time you log on to this device.

☐ Enable single sign-on

For more information on configuring single sign-on, please see
article CTX133982 at citrix.com/support.

[Next]   [Cancel]

You can choose to or not send anonymous data to Citrix

Click finish

Go back to http://www.rocklinusd.org/remote
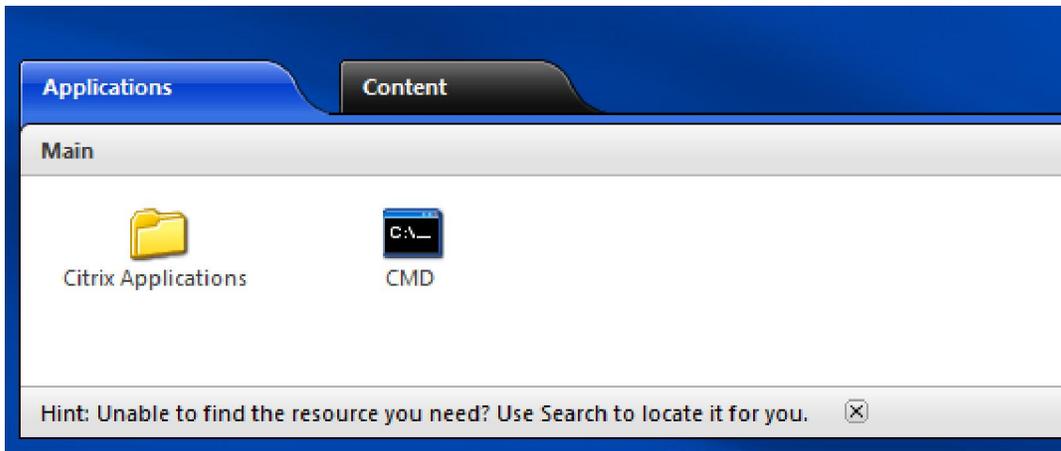

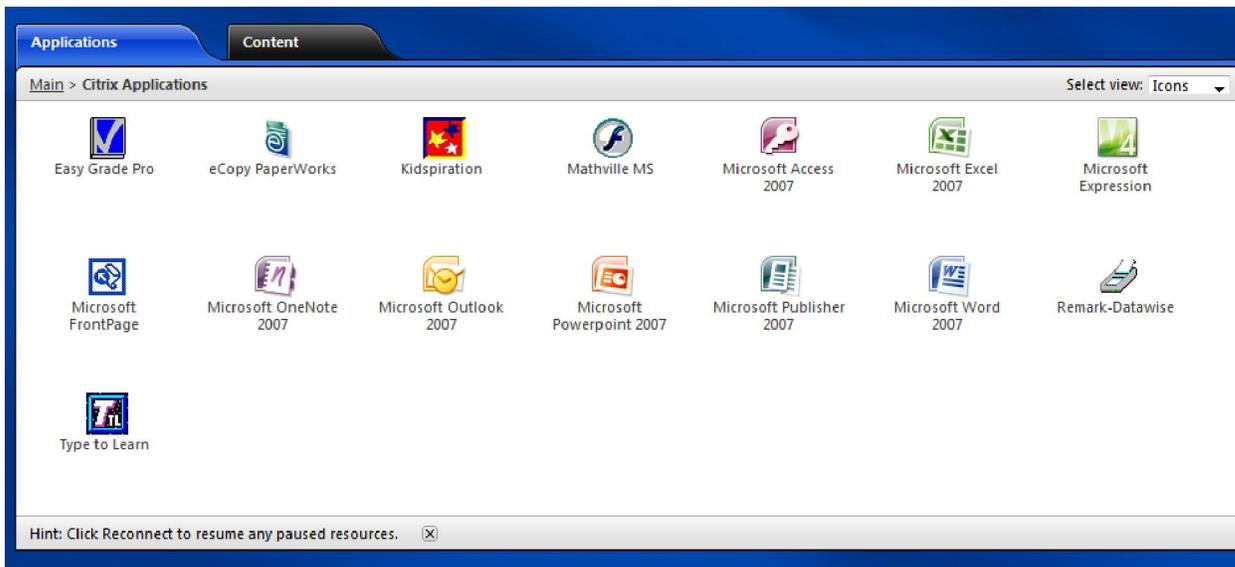

After you log in, you should see Citrix Applications folder. Click on that folder to see your applications.

Choose the program you want to run.

Enjoy.
