The purpose of the Rocklin Basketball Club is to provide an opportunity for Boys and Girls that live in the Rocklin High School attendance area to improve their basketball skills in a competitive/fun environment. The RBC will emphasize: 1) offensive and defensive fundamentals, 2) individual offensive/defensive skill development, 3) team offensive/defensive concepts, 4) the development of a solid work ethic/positive attitude, 5) challenging competition, 6) preparing players for success in middle school/high school programs.

We plan to have 8-10 players on each team, depending on the skill level of the players in that age group. If for some reason there are enough skilled/experienced players for two teams in a grade level, they will be separated by ability, position, and experience levels.

Players are expected to attend practices and games in order to be a member of a team. However, we will have some kids that are playing another sport in the varying seasons and want to play in the RBC. In this situation, we will work with the individual player's family to see if it is possible for them to attend practice during the week and play in at least some of the games.

RBC teams will be led by experienced coaches, under the supervision of Brett Ost (Varsity assistant Coach), Kenny Smith (Head Freshmen Coach)

**Brett Ost and Kenny Smith work closely with Steve Taylor (Head Boys Basketball Coach at Rocklin HS) and Jenna Herford (Head Women's Varsity Coach) to create and develop a consistent message / teaching of the High School Program philosophies.**

*As this has come to fruition on very short notice due to gym space requirements being in high demand, we will be reviewing all Costs associated for the upcoming season. Please be prepared for a 10\$ tryout fee at the door. (Generally we have Rocklin Unified School District facilities at a much lesser cost per hour). We will follow up with all other season Fee's to participate early this week.*

**Players should attend the try-out session so that the coaches can effectively evaluate their skill level.**
