

> *Don't miss out!*

AFTER SCHOOL **LEGO BUILDING** Classes

> **IT'S OUR *last session* OF THE SCHOOL YEAR!**

Has your child had a chance to learn about *propulsion, energy transfer, or bioluminescence* yet?
Maybe it's time to try Early Engineers!

Our kids need the real world skills and experience that can only be gained through STEM (Science, Technology, Engineering and Math). Each week, Early Engineers offers a new building challenge, and using a variety of materials, such as Legos, we explore a brand new STEM concept. We choose concepts that would otherwise not be covered until middle, or even high school. We aim to familiarize students with these concepts now, so they are confident and willing to engage in the sciences throughout their life!

Come build with us!
