#### INDEPENDENT AUDITOR'S REPORT

Board of Trustees Rocklin Unified School District Rocklin, California

### **Report on the Financial Statements**

We have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of Rocklin Unified School District, as of and for the year ended June 30, 2020 and the related notes to the financial statements, which collectively comprise Rocklin Unified School District's basic financial statements as listed in the table of contents.

### Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

### Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

#### **Opinions**

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of Rocklin Unified School District, as of June 30, 2020, and the respective changes in financial position for the year then ended in accordance with accounting principles generally accepted in the United States of America.

#### Other Matters

### Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the Management's Discussion and Analysis on pages 4 to 16 and the Required Supplementary Information, such as the General Fund Budgetary Comparison Schedule, the Schedule of Changes in Net Other Postemployment Benefits (OPEB) Liability and Related Ratios, the Schedule of the District's Contributions - OPEB, the Schedule of Money-Weighted Rate of Return on OPEB Plan Investments, the Schedule of the District's Proportionate Share of the Net Pension Liability, and the Schedule of the District's Contributions on pages 59 to 66 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

### Supplementary Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise Rocklin Unified School District's basic financial statements. The accompanying schedule of expenditure of federal awards as required by Title 2 U.S. Code of Federal Regulations (CFR) Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Award, and the other supplementary information listed in the table of contents are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The schedule of expenditure of federal awards and other supplementary information as listed in the table of contents are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information, except for the Schedule of Financial Trends and Analysis, has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the schedule of expenditure of federal awards and other supplementary information as listed in the table of contents, except for the Schedule of Financial Trends and Analysis, are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

The Schedule of Financial Trends and Analysis has not been subjected to the auditing procedures applied in the audit of the basic financial statements, and accordingly, we do not express an opinion or provide any assurance on it.

### Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated December 10, 2020 on our consideration of Rocklin Unified School District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the Rocklin Unified School District's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering Rocklin Unified School District's internal control over financial reporting and compliance.

### MANAGEMENT'S DISCUSSION AND ANALYSIS FOR THE YEAR ENDED JUNE 30, 2020

#### FINANCIAL REPORTS

This section of the District's annual financial report presents our discussion and analysis of the District's financial performance for the fiscal year ended June 30, 2020. Please read it in conjunction with the District's financial statements which immediately follow this section.

### **COVID-19 IMPACTS**

On March 13, 2020, California Governor Gavin Newsom issued Executive Order N-26-20, proclaiming a State of Emergency to exist in California as a result of the threat of the COVID-19 virus, and providing that if any California school districts, county offices of education, and charter schools (each a "Local Educational Agency" or "LEA") closes its schools to address COVID-19, the LEA will continue to receive state funding during the period of closure. On March 13, 2020, the District announced that beginning March 16, 2020 through April 13, 2020, all of the District's school sites and offices would be closed with minimal site staff. On April 3, 2020, the District announced that children would remain in distance learning for the remainder of the school year.

The Governor also signed Senate Bill 117 ("SB 117") as urgency legislation effective immediately. For purposes of school district funding for fiscal year 2019-20, SB 117 limits the average daily attendance reported to the California Department of Education to include the full school months from July 1, 2019, to February 29, 2020. This condensed ADA period applies to school districts that comply with Executive Order N-26-20. SB 117 further states the intent of the State Legislature that a school district's employees and contractors be paid during the period of a school closure due to COVID-19. SB 117 also waived instructional time penalties that would otherwise accrue, as long as the school district superintendent, or charter school administrator certify that the closure due to COVID-19 caused the school district to fall below applicable instructional time requirements. While SB 117 provided some immediate relief to school districts, the short-term and long-term impacts of the COVID-19 outbreak are unknown as the situation continues to evolve.

On March 19, 2020, the Governor issued Executive Order N-33-20, a State-wide stay at home order to protect the health and well-being of all Californians and to establish consistency across the State in order to slow the spread of COVID-19. Such order went into effect immediately.

The District has monitored guidelines and regulations from state and local agencies regarding COVID-19 and will continue to do so.

Due to the financial impact of the pandemic, the State deferred the June apportionment and EPA installments to July, for a net of \$8.2 million. Large deferrals of state funding will also be in effect in 2020-21 and perhaps beyond.

### FINANCIAL HIGHLIGHTS

California K-12 education finance is in the seventh year of the funding model "Local Control Funding Formula" (LCFF). The State adopted the 2019-20 budget on time. It included an increase of \$2.9 billion in new Proposition 98 funding, of which \$2 billion was for implementation of the LCFF.

The net pension liability as of June 30, 2020 was \$132.1 million. The net pension liability increased by \$10.9 million primarily due to lower investment returns compared to projected earnings on pension plan

### MANAGEMENT'S DISCUSSION AND ANALYSIS FOR THE YEAR ENDED JUNE 30, 2020

investments during the measurement period of the Net Pension Liability (June 30, 2019). Refer to Note 8 for further disclosures related to the net pension liability.

The District's enrollment increased by 188 students (1.57%) at CBEDS (the California Basic Educational Data System) over the last two years and had an increase of 1,591 students (15.05%) from 2009/10-2019/20.

2019-20 was the seventh year of operation of the District's dependent charter school – Rocklin Independent Charter Academy (RICA). The P-2 ADA was 90 with a CBEDS enrollment of 105. It was accounted for in a separate special revenue fund, had revenues of \$957 thousand and deficit spent by \$167k. On February 11, 2020, the Board of Trustees voted to close RICA at the end of the 2019-20 school year. It was determined that RICA was not sustainable in its current state due to programmatic and fiscal inefficiencies.

In 2019-20, the District continued work on two major construction projects which were approved in 2018-19. One was an expansion of Ruhkala Elementary as part of a 40-year long term housing agreement with Rocklin Academy Charter Schools, which will allow the District to accommodate projected growth at Rocklin Elementary. This project is scheduled to be completed in 2020-21 and is budgeted to cost \$12.2 million. The second major project is the construction of the District's twelfth elementary school which is estimated to cost \$42.1 million, including land. In October 2019, the District issued \$25.16 million Mello-Roos bonds for the construction of Elementary School #12. Due to budget constraints, the opening of this school is being delayed until 2022-23. The Ruhkala Expansion project is being funded with developer fees, State facilities bond funds, and \$525k from Rocklin Academy Charter Schools. The Elementary School #12 project is being funded with Mello-Roos bond proceeds and State facilities bond funds.

In 2018-19, the District settled 2018-19 and 2019-20 with all employee groups for 5% and 6% respectively. In conjunction with settlements, the Board approved budget reductions of \$1.9 million in 2019-20. In March 2020, the Board of Trustees approved budget reductions of \$3.4 million in 2020-21. Based on existing budget assumptions, including the elimination of COLA funding and decreased enrollment due to COVID-19, and rising costs such as personnel, pension and insurance costs, additional reductions will be needed in 2021-22.

### OVERVIEW OF THE FINANCIAL STATEMENTS

This annual report consists of four parts – management discussion and analysis (this section), the basic financial statements, required supplementary information and an optional section that presents combining statements for all governmental funds. The basic financial statements include two kinds of statements that present different views of the district.

The first two statements are government-wide financial statements that provide both long-term and short-term information about the District's overall financial status.

The remaining statements are fund financial statements that focus on individual parts of the District, reporting the District's operations in more detail than the government-wide statements.

The governmental funds statements tell how basic services, like regular and special education, and capital projects were financed in the short term as well as what remains for future spending.

Fiduciary funds statements provide information about the financial relationships in which the District acts solely as a trustee or agent for the benefit of others to whom the resources belong.

### MANAGEMENT'S DISCUSSION AND ANALYSIS FOR THE YEAR ENDED JUNE 30, 2020

The financial statements also include notes that explain some of the information in the financial statements and provide more detailed data. The statements are followed by a section of required supplementary information that further explains and supports the information in the financial statements. In addition to these required elements, we have included a section with combining statements that provide details about our governmental funds.

### **District-Wide Statements**

The District-wide statements report information about the District as a whole using accounting methods similar to those used by private-sector companies. The statement of net position includes all of the District's assets, liabilities and deferred outflows and inflows. All of the current year's revenues and expenses are accounted for in the statement of activities regardless of when cash is received or paid.

The two District-wide statements report the District's net position and how it has changed. Net position, the difference between the District's assets, liabilities, deferred outflows and inflows, is one way to measure the District's financial health or position. Over time, increases or decreases in the District's net position are an indicator of whether its financial position is improving or deteriorating, respectively.

Major Features of the District-Wide and Fund Financial Statements:

		Fund Statements		
Type of Statements	District-wide	Governmental Funds	Fiduciary Funds	
Scope	Entire District, except fiduciary activities	The activities of the District that are not proprietary or fiduciary, such as special education and building maintenance	Instances in which the District administers resources on behalf of someone else, such as scholarship programs and student activities monies	
Required financial statements	• statement of net position	• balance sheet	• statement of fiduciary net position	
	• statement of activities	• statement of revenues, expenditures & changes in fund balances	• statement of changes in fiduciary net position	
Accounting basis and measurement focus	Accrual accounting and economic resources focus	Modified accrual accounting and current financial resources focus	Accrual accounting and economic resources focus	
Type of asset/deferred outflow/ liability/deferred inflow information	All assets/deferred outflow and liabilities/deferred inflow, both financial and capital, short-term and long- term	Only assets/deferred outflow expected to be used up and liabilities/deferred inflow that come due during the year or soon thereafter; no capital assets included	All assets/deferred outflow and liabilities/deferred inflow, both short-term and long- term	
Type of inflow/outflow information	All revenues and expenses during year, regardless of when cash is received or paid	Revenues for which cash is received during or soon after the end of the year; expenditures when goods or services have been received and payment is due during the year or soon thereafter	All revenues and expenses during year, regardless of when cash is received or paid	

### MANAGEMENT'S DISCUSSION AND ANALYSIS FOR THE YEAR ENDED JUNE 30, 2020

### **Fund Financial Statements**

The fund financial statements provide more detailed information about the District's most significant fundsnot the District as a whole. Funds are accounting devices the District uses to keep track of specific sources of funding and spending on particular programs.

Some funds are required by State law and by bond covenants. (See Note 1 to the financial statements for more information on the District's funds).

#### **NET POSITION**

The District's net position increased \$1.3 million from the prior year to \$46.7 million on June 30, 2020. Overall current and other assets increased by \$7.9 million, mostly due to an overpayment received of EPA revenue of \$4.5 million and expenditure budget savings of approximately \$3.1 million. Capital Assets also increased by \$21.5 million, largely attributable to Work-in-Progress on the 12<sup>th</sup> Elementary School and the Ruhkala Expansion project. Additional factors attributing to the change in net position include: increase of \$4.9 million in deferred outflows of resources mostly relating to pensions; increase of \$26.7 million in long-term debt, of which \$25.4 million was attributable to new Mello-Roos bonds and refunding COPs, \$6.9 million in accreted interest, \$3.6 million increase in bond premium, and \$10.9 million of net pension liability increase, offset by debt payments of \$20.1 million.

The District's total net position increased by \$1.3 million during 2019-20 and increased by \$7.9 million during 2018-19.

Operating grants and contributions decreased by \$1.2 million primarily due to a decrease of \$1.8 million to record the District's portion of the State's pension expense and a decrease of \$.7 million in one-time Low Performing Student Block Grant funding which ended.

### MANAGEMENT'S DISCUSSION AND ANALYSIS FOR THE YEAR ENDED JUNE 30, 2020

Property taxes increased by a net \$3.3 million. Property tax revenues in debt service funds decreased by \$.7 million because the final payment on the 1991-B general obligation bonds was paid in 2018-19. Property taxes for general purposes increased by \$3.9 million due to the rise in assessed property values.

Federal and State aid not restricted to specific purposes decreased by a net \$1.8 million. Fully-funded LCFF revenue, plus a COLA of 3.26%, along with enrollment growth, contributed to an increase of \$.4 million (excluding property taxes). There was a decrease of \$2.1 million for one-time state mandated cost reimbursements, as 2018-19 was the last year of this funding.

Expenditures increased by a net of \$5.7 million due primarily to a salary increase of 6% for 2019-20. There were also increases in salaries and benefits due to growth in number of employees, primarily in special education, step and column costs, and pension rate increases. Overall, an additional \$4.3 million was spent on salaries and benefits in 2019-20 over the prior year across all functions. \$505k was spent from new Federal CARES Act funding for COVID-19. Per State directive, CARES act revenue could not be recognized until 2020-21, although spending began in March 2020. There were also debt issuance expenses attributed to the new CFD and COP Refunding debt of \$763k. In summary, there was increase of instruction and instructional-related expenditures of \$4.8 million, an increase of \$.4 million in general administration, an increase of \$.6 million in maintenance and operations, an increase of \$.1 million in interest on long-term debt, and a decrease of \$.2 million in other expenses.

### FINANCIAL INFORMATION OF THE SCHOOL DISTRICT

#### **Financial Statements**

The District's General Fund is its primary operating fund. It finances the ordinary operations of the school district. General Fund revenues are derived from such sources as state school fund apportionments, taxes, use of money and property, and aid from other governmental agencies.

The District is required by provisions of the State Education Code to maintain a balanced budget each year, in which the sum of expenditures and the ending fund balance cannot exceed the sum of revenues and the carry-over fund balance from the previous year. School Districts must adopt a budget on or before July 1 of each year. The budget is then revised on a regular basis to reflect changes in projected income and expenses subsequent to July 1.

### **State Funding of Education**

California school districts receive a significant portion of their funding from State appropriations. As a result, changes in State revenues will significantly affect appropriations made by the Legislature to school districts. Annual State apportionments are primarily computed based on the LCFF. The LCFF creates base, supplemental, and concentration grants in place of most previously existing K–12 funding streams. Now fully implemented, every district in California will receive the same base grant amount per ADA by grade span through the LCFF. The LCFF also provides a supplemental grant equal to 20 percent of the adjusted base grant for targeted disadvantaged students, which are English learners, socio-economically disadvantaged or foster youth. In addition, those districts with targeted disadvantaged students exceeding 55 percent of their total enrollment will also receive a concentration grant equal to 50 percent of the adjusted base grant. The District does not qualify to receive any concentration grant funds.

### MANAGEMENT'S DISCUSSION AND ANALYSIS FOR THE YEAR ENDED JUNE 30, 2020

As part of the LCFF, the district is required to develop, adopt, and annually update a three-year Local Control and Accountability Plan (LCAP) using a template adopted by the California State Board of Education.

Other State apportionments are for categorical programs such as Special Education and Child Nutrition.

### **Ad Valorem Property Taxation**

Taxes are levied by the County for each fiscal year on taxable real and personal property which is situated in the school district as of the preceding January 1. Property taxes are due in two installments, on November 1 and February 1 of each fiscal year. These monies come to the district through the Placer County Office of Education primarily in December, April, and August. The District is under the Teeter Plan and receives the last 5% of property tax receipts in August of each year. Property within the school district had a net adjusted assessed valuation for fiscal year 2019-20 of \$10,198,668,810.

### **Employee Relations**

Most employees of the District are represented by the following bargaining units: the Rocklin Teachers Professional Association (RTPA) and California School Employees Association (CSEA). Agreements were reached with RTPA and CSEA and Non-Represented on employee compensation and benefits for 2019-20 on January 16, 2019 and June 24, 2019 respectively. Agreements were reached with Confidential, Superintendents and RAPA on February 6, 2019.

### **Retirement Employee Benefits**

The Retiree Benefit Fund is used to fund employee retirement medical benefit payments. The fund was established in 1997. During fiscal year 1996-97 the district transferred \$1,000,000 into the Retiree Benefit Fund to partially fund this liability. The District has made yearly contributions to the Retiree Benefit Fund since 1999, based upon actuarial studies. In June 2006, the district created an Irrevocable Trust for retiree benefits. All funds in the Retiree Benefit Fund were transferred to the Irrevocable Trust.

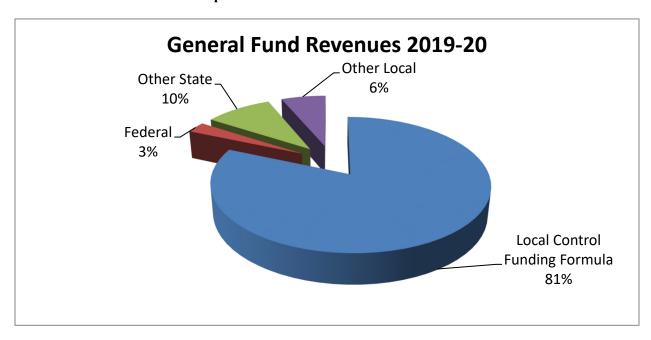

As of the most recent valuation date, June 30, 2020, the District's net OPEB liability is estimated to be \$6,196.

### **District Reserves and Net Ending Balance**

Revenues that have not been expended during a budget year are carried over for expenditure in the subsequent year and identified as the District's "Net Ending Balance." Included within the projected net ending balance is a "reserve for economic uncertainties." The State of California requires districts of our size to retain at least a minimum amount equal to 3% of our budgeted expenditures to cover unforeseen shortfalls in revenues or expenditures that are higher than those budgeted. The District's reserve for economic uncertainty at June 30, 2020 is 7.66%. Also included in the net ending balance are carryover balances that originated from sources that can only be used for selected purposes. These revenues, called "restricted," can only be expended for the purposes as determined by the grantor, and the balances in these accounts carry the same restrictions as the originating income. Thus, a net ending balance is reflected with two types of accounts, those that are restricted that can be used for selected purposes only and those that are unrestricted and, thus, can be expended by decisions of the local agency.

### MANAGEMENT'S DISCUSSION AND ANALYSIS FOR THE YEAR ENDED JUNE 30, 2020

### **General Fund Revenues and Expenditures**

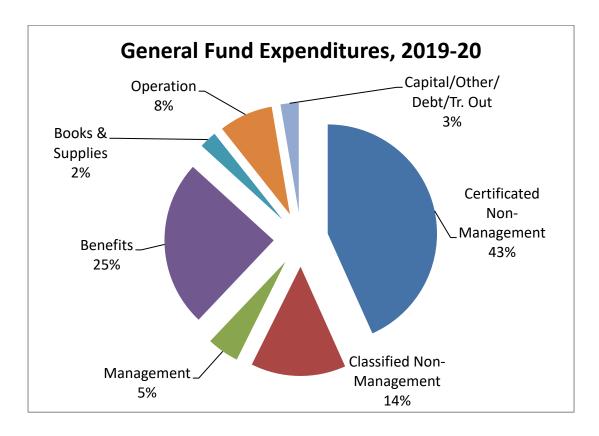

Most of the District's General Fund revenue is generated from the LCFF funding model, which yields funds based on a state-determined formula times the average number of students who are in attendance throughout the school year. Public education, unlike any other public agency, receives most of its revenue based on the population it serves.

The second biggest source of revenue is state categorical income that must be spent for selected State-determined programs. The largest categorical program is funding for a portion of Special Education services. State on Behalf contributions to STRS of \$7.5 million are also reported as Other State Revenue. All of the Federal income received by the District is restricted since it must be expended for purposes that are determined by the grantor and not the local Board of Trustees.

The District's total resources for expenditure in the budget year include a "beginning balance," which reflects a carryover unexpended balance from the prior year. Under the requirement of state law, a portion of the beginning balance must remain as a Reserve for Economic Uncertainties.

### MANAGEMENT'S DISCUSSION AND ANALYSIS FOR THE YEAR ENDED JUNE 30, 2020

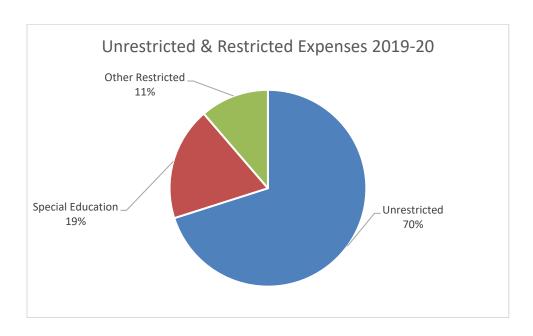

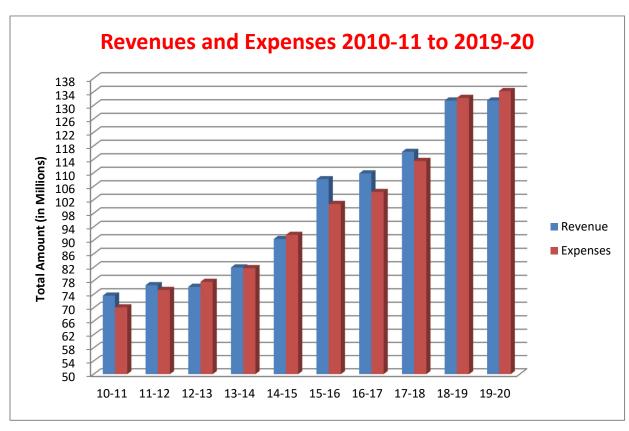

Most of the expenditures of the District were to pay the salaries and benefits of the employees of the District. It takes people to teach people, and in Rocklin Unified School District, 86.8% of the District's General Fund expenditures were for the services of District employees. Salaries represented 62.1% of District expenditures. The health and welfare benefits for District employees were an additional 24.7% of expenditures and included expenses for areas such as retirement, both State and Federal, medical, dental and life insurance plans, and workers' compensation expenses. Included in the retirement expenses is \$7.5 million of State on Behalf contributions to STRS.

The biggest restricted program in the District is Special Education. Local agencies are obligated for this program to expend the income for selected program purposes.

For Special Education, Rocklin Unified School District expended \$25 million to meet the obligations of the program and the obligations of State and Federal law. State and Federal Special Education income is significantly less than the obligations of the program and the district must use unrestricted or general-purpose income to address the full obligations of Special Education. The difference between the restricted income and the expenditures in Special Education is described as a "contribution" in that the unrestricted general-purpose revenue must be contributed to the special education program to cover the shortfall of state and federal funding. The contribution to Special Education in 2019-20 was \$15.5 million, or 61.9% and \$13.5 million, or 59.4%, in 2018-19.

### MANAGEMENT'S DISCUSSION AND ANALYSIS FOR THE YEAR ENDED JUNE 30, 2020

### MANAGEMENT'S DISCUSSION AND ANALYSIS FOR THE YEAR ENDED JUNE 30, 2020

### **General Fund Budgetary Highlights**

Over the course of the year, the District revised the annual operating budget several times. These budget amendments primarily fall into six categories:

- Changes made to adjust to the State adopted budget and subsequent State revisions.
- Changes made to adjust to actual enrollment needs once school begins.
- Increases for carryover of categorical funding and greater/less than expected enrollment of students.
- Adjustments in projections of special education funding and bill back charges by the Placer SELPA and County Office of Education.
- Updates to federal and state funding allocations
- Changes in expenditures, including salary and benefit costs due to settlement with employee groups, staffing changes, operational costs, and program costs.

The District's final budget for the general fund reflected a decrease in fund balance of \$7.6 million, the projected decrease as presented to the Board on June 24, 2019 was \$7.9 million, and the actual net decrease in fund balance was \$2.8 million.

Revenues estimated in the revised budget were more than revenues in the original budget by \$4.9 million as the adopted budget did not include new one-time Special Education Preschool funding of \$748k, an additional \$2.4 million in State STRS on Behalf funding that must be recorded by the District, \$636k in other State Categorical programs, \$449k in Federal programs, and \$106k in RDA funding. Actual revenues were less than revised budget by \$400k, which was mostly due to a decrease in revenue in Title I (\$127k) and Title II (\$203k).

Original budgeted expenditures were \$4.5 million less than revised budget due primarily to the increase in the STRS rate from the Governor's May Revision (16.7%) and the Adopted State Budget (17.1%), increases in special education staffing, both certificated and classified, due to growth of \$508k, an increase in repairs of \$310k, software costs of \$278k, professional services of \$1.62 million, budgeting of carryover, and expenditures for new Federal and State Categorical funding listed above for change in revenue. Actual expenditures were \$5.1 million less than revised budget, mostly due to program, site and department budget savings and substitute cost savings realized as a result of the school shutdown for COVID-19.

### MANAGEMENT'S DISCUSSION AND ANALYSIS FOR THE YEAR ENDED JUNE 30, 2020

### CAPITAL ASSETS AND DEBT ADMINISTRATION

### **Capital Assets**

By the end of 2020 the District had invested \$247.8 million in a broad range of capital assets, including land, school buildings, athletic facilities, administrative buildings, computer and other equipment, and vehicles. This amount represents a net increase of \$21.5 million, or 9.51%, in 2019-20 and an increase of \$3.5 million, or 1.54%, in 2018-19. (More detailed information about capital assets can be found in Note 4 to the financial statements).

The following projects were completed during 2019-20: Asphalt projects at four schools, roofing projects at 2 schools, and new portables at Rocklin and Whitney High Schools.

As of June 30, 2020, the District had construction in progress of \$33.4 million, of which \$23.7 million was for the new Elementary School #12, \$1.5 million for the Rocklin High School fire alarm project, \$7.7 million for the Ruhkala expansion project, \$357k for the camera safety project, \$139k for the District Office generator project, and \$76k for the portable project at the high schools. Total depreciation expense was \$7.4 million in 2019-20 and \$7.4 million in 2018-19.

### **Long-Term Debt**

At June 30, 2020, the District had \$330.4 million in general obligation bonds, Mello-Roos Bonds, net pension liability and other long-term debt outstanding, an increase of \$26.7 million from last year. (More detailed information about the District's long-term liabilities is presented in Note 5 to the financial statements).

- The District issued \$14,159,000 in COPs in May 2020 to refund \$13,880,000 of the Series 2006 COPs.
- The District issued \$25,160,000 in Mello-Roos bonds in October 2019 to partially finance the construction of Elementary School #12.
- The District continued to pay down its debt, retiring \$34.2 million in 2019-20 and \$20.3 million in 2018-19.
- \$6.9 million of accreted interest accrued in 2019-20.

### **Bond Rating**

In 2017 the District's general obligation bonds and Mello Roos bonds were rated AA- by Fitch. In 2019 the District's general obligation bonds were rated AA-, the Mello-Roos bonds were rated A+ and the Certificates of Participation were rated A+ by Standard & Poor's.

### MANAGEMENT'S DISCUSSION AND ANALYSIS FOR THE YEAR ENDED JUNE 30, 2020

### **DEBT LIMITATIONS**

### **General Obligation Bonds**

The statutory limitation for California school district general obligation bonds in any fiscal year is 2.5% of the District's assessed valuation minus the principal amount of any outstanding general obligation bonds of the District.

### **Mello-Roos Bonds**

The California Government Code requires that the value of real property subject to a Mello-Roos special tax must be least three times the principal amount of the Mello-Roos bonds to be sold and the principal amount of all other outstanding bonds that are secured by a Mello-Roos special tax or a special assessment levied against the same property.

### **NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

Rocklin Unified School District (the "District") (the "District") accounts for its financial transactions in accordance with the policies and procedures of the Department of Education's California School Accounting Manual. The accounting policies of the District conform to accounting principles generally accepted in the United States of America as prescribed by the Governmental Accounting Standards Board (GASB) and the American Institute of Certified Public Accountants (AICPA).

Reporting Entity: The District has reviewed criteria to determine whether other entities with activities that benefit the District should be included within its financial reporting entity. The criteria include, but are not limited to, whether the entity exercises oversight responsibility (which includes financial interdependency, selection of governing authority, designation of management, ability to significantly influence operations, and accountability for fiscal matters), the scope of public service, and a special financing relationship.

Mello-Roos Community Facilities Districts: The District and Community Facilities Districts #1, #2 and #3 (the CFDs) have financial and operational relationships which meet the reporting entity definition criteria for inclusion of the CFDs as component units of the District. Accordingly, the financial activities of the CFDs have been included in the financial statements of the District.

The following are aspects of the relationship between the District and the CFDs which satisfy the inclusion criteria:

### Accountability

- 1. The CFDs' Boards of Directors are the same as the District's Board of Trustees. Therefore, the District assumes all duties and responsibilities related to the CFDs. The CFDs have no employees of their own. The District's Superintendent, Deputy Superintendent, and Director of Fiscal Services and Purchasing function as agents of the CFDs, but do not receive additional compensation for work performed in this capacity. The District charges the CFDs for certain administrative costs.
- 2. The District is able to impose its will upon the CFDs, based on the following:
- All major financing arrangements, contracts, and other transactions of the CFDs must have the consent of the District.
- The District exercises significant influence over operations of the CFDs.
- 3. The CFDs provide specific financial benefits or impose specific financial burdens on the District based upon the following:
- Proceeds of bond issues from the CFDs are used for capital outlay projects of the District.
- The District is responsible for assuring that the taxes collected are used to fund the cost of debt service.

### Scope of Public Service

The CFDs were created for the sole purpose of financially assisting the District. The CFDs are community facilities districts created pursuant to the provisions of the Mello-Roos Community Facilities Act of 1982, as amended by Chapter 2.5, Part 1, Division 2, Title 5, of the California Government Code established March 30, 1989. The CFDs were formed to provide financing assistance to the District for construction, rehabilitation, and acquisition of major capital facilities to support the student population

### NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

### Financial Presentation

For financial presentation purposes, the CFD's financial activity has been blended, or combined, with the financial data of the District. The financial statements present the CFD's financial activity within the District's debt service and capital projects funds. There are no separately issued financial statements. Special tax bonds issued by the CFDs are included in long-term liabilities of the District.

<u>Basis of Presentation - Financial Statements</u>: The basic financial statements include a Management's Discussion and Analysis (MD & A) section providing an analysis of the District's overall financial position and results of operations, financial statements prepared using full accrual accounting for all of the District's activities, including infrastructure, and a focus on the major funds.

<u>Basis of Presentation - Government-Wide Financial Statements</u>: The Statement of Net Position and the Statement of Activities display information about the reporting government as a whole. Fiduciary funds are not included in the government-wide financial statements. Fiduciary funds are reported only in the Statement of Fiduciary Net Position and the Statement of Changes in Fiduciary Net Position at the fund financial statement level.

The Statement of Net Position and the Statement of Activities are prepared using the economic resources measurement focus and the accrual basis of accounting. Revenues, expenses, gains, losses, assets and liabilities resulting from exchange and exchange-like transactions are recognized when the exchange takes place. Revenues, expenses, gains, losses, assets and liabilities resulting from nonexchange transactions are recognized in accordance with the requirements of Governmental Accounting Standards Board Codification Section (GASB Cod. Sec.) N50.118-.121.

*Program revenues* - Program revenues included in the Statement of Activities derive directly from the program itself or from parties outside the District's taxpayers or citizenry, as a whole; program revenues reduce the cost of the function to be financed from the District's general revenues.

Allocation of indirect expenses - The District reports all direct expenses by function in the Statement of Activities. Direct expenses are those that are clearly identifiable with a function. Depreciation expense is specifically identified by function and is included in the direct expense of each function. Interest on general long-term liabilities is considered an indirect expense and is reported separately on the Statement of Activities.

### NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

<u>Basis of Presentation - Fund Accounting</u>: The accounts of the District are organized on the basis of funds, each of which is considered to be a separate accounting entity. The operations of each fund are accounted for with a separate set of self-balancing accounts that comprise its assets, liabilities, fund equity, revenues, and expenditures or expenses, as appropriate. District resources are allocated to and accounted for in individual funds based upon the purpose for which they are to be spent and the means by which spending activities are controlled.

### A - Major Funds

#### General Fund:

The General Fund is the general operating fund of the District and accounts for all revenues and expenditures of the District not encompassed within other funds. All general tax revenues and other receipts that are not allocated by law or contractual agreement to some other fund are accounted for in this fund. General operating expenditures and the capital improvement costs that are not paid through other funds are paid from the General Fund.

### Capital Facilities Fund:

The Capital Facilities Fund is a capital projects fund used to account for financial resources used for the acquisition or construction of capital facilities by the District.

Capital Projects for Blended Component Units Fund:

The Capital Projects for Blended Component Units Fund is a capital projects fund used to account for capital projects financed by the Community Facilities Districts #1, #2 and #3 (the CFDs).

Bond Interest and Redemption Fund:

The Bond Interest and Redemption Fund is a debt service fund used to account for the accumulation of resources for, and the repayment of General Obligation bonds, interest, and other debt related costs.

### B - Other Funds

Special Revenue Funds are used to account for the proceeds of specific revenue sources that are legally restricted to expenditures for specified purposes. This classification includes the Charter School, Cafeteria and Deferred Maintenance Funds.

Capital Projects Funds are used to account for resources used for the acquisition or construction of capital facilities by the District. This classification includes the County School Facilities and Special Reserve for Capital Outlay Funds.

The Debt Service for Blended Component Units Fund is a debt service fund used to account for the accumulation of resources for, and the payment of, general long-term liabilities principal, interest and related costs.

The Retiree Benefits Trust Fund is used to account for amounts held by the District as Trustee, to be used to provide retiree benefits to retirees of the District.

### NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

The Student Body Fund is used to account for revenues and expenditures of the various student body organizations. All cash activity, assets and liabilities of the various student bodies of the District are accounted for in the Student Body Fund. The District also has a warrant pass-through fund reported in the agency funds.

<u>Basis of Accounting</u>: Basis of accounting refers to when revenues and expenditures or expenses are recognized in the accounts and reported in the basic financial statements. Basis of accounting relates to the timing of the measurement made, regardless of the measurement focus applied.

<u>Accrual</u>: Governmental activities in the government-wide financial statements and fiduciary fund financial statements are presented on the accrual basis of accounting. Revenues are recognized when earned and expenses are recognized when incurred.

<u>Modified Accrual</u>: The governmental funds financial statements are presented on the modified accrual basis of accounting. Under the modified accrual basis of accounting, revenues are recorded when susceptible to accrual; i.e., both measurable and available. "Available" means collectible within the current period or within 60 days after year end. Expenditures are generally recognized under the modified accrual basis of accounting when the related liability is incurred. The exception to this general rule is that principal and interest on general obligation long-term liabilities, if any, is recognized when due.

<u>Budgets and Budgetary Accounting</u>: By state law, the Board of Education must adopt a final budget by July 1. A public hearing is conducted to receive comments prior to adoption. The Board of Trustees complied with these requirements.

<u>Receivables</u>: Receivables are made up principally of amounts due from the State of California for Local Control Funding Formula and Categorical programs. The District has determined that no allowance for doubtful accounts was needed as of June 30, 2020.

<u>Stores Inventory</u>: Stores inventory is valued using the purchases method in that the expense is recorded at the time of purchase. Inventories are recorded as an expenditure or expense at the time the individual inventory items are transferred from the warehouse to the schools or used in meal production.

<u>Capital Assets</u>: Capital assets purchased or acquired, with an original cost of \$15,000 or more, are recorded at historical cost or estimated historical cost. Contributed assets are reported at acquisition value for the contributed asset. Additions, improvements and other capital outlay that significantly extend the useful life of an asset are capitalized. Other costs incurred for repairs and maintenance are expensed as incurred. Capital assets are depreciated using the straight-line method over 5 - 30 years depending on asset types.

<u>Interfund Activity</u>: Interfund activity is reported as either loans, services provided, reimbursements or transfers. Loans are reported as interfund receivables and payables as appropriate and are subject to elimination upon consolidation. Services provided, deemed to be at market or near market rates, are treated as revenues and expenditures/expenses. Reimbursements are when one fund incurs a cost, charges the appropriate benefiting fund and reduces its related cost as a reimbursement. All other interfund transactions are treated as transfers.

### NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

<u>Outflows/Inflows of Resources</u>: In addition to assets, the statement of net position includes a separate section for deferred outflows of resources. This separate financial statement element, deferred outflows of resources, represents a consumption of net position that applies to a future period(s), and as such will not be recognized as an outflow of resources (expense/expenditures) until then. The District has recognized a deferred loss on refunding reported, which is in the statement of net position. A deferred loss on refunding results from the difference in the carrying value of refunded debt and its reacquisition price. This amount is deferred and amortized over the shorter life of the refunded or refunding debt. Additionally, the District has recognized a deferred outflow of resources related to the recognition of the pension liability as well as the Net OPEB liability reported in the Statement of Net Position.

In addition to liabilities, the statement of net position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition of net position that applies to a future period(s) and as such, will not be recognized as an inflow of resources (revenue) until that time. The District has recognized a deferred inflow of resources related to the recognition of the pension liability reported which is in the Statement of Net Position

<u>Pensions</u>: For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the State Teachers' Retirement Plan (STRP) and Public Employers Retirement Fund B (PERF B) and additions to/deductions from STRP's and PERF B's fiduciary net position have been determined on the same basis as they are reported by STRP and PERF B. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Certain investments are reported at fair value. The following is a summary of pension amounts in aggregate.

<u>STRP</u>		PERF B		<u>Total</u>
\$ 33,409,334	\$	7,934,057	\$	41,343,391

<u>Compensated Absences</u>: Compensated absence benefits in the amount of \$628,050 are recorded as a long-term liability of the District. The liability is for the earned but unused benefits.

<u>Sick Leave Benefits</u>: Sick leave benefits are not recognized as liabilities of the District. The District's policy is to record sick leave as an operating expenditure or expense in the period taken since such benefits do not vest nor is payment probable; however, unused sick leave is added to the creditable service period for calculation of retirement benefits for certain CalSTRS and CalPERS employees, when the employee retires.

<u>Unearned Revenue</u>: Revenue from federal, state, and local special projects and programs is recognized when qualified expenditures have been incurred. Funds received but not earned are recorded as unearned revenue until earned.

### NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Net Position: Net position is displayed in three components.

- 1. Net Investment in Capital Assets Consists of capital assets including restricted capital assets, net of accumulated depreciation and reduced by the outstanding balances (excluding unspent bond proceeds) of any bonds, mortgages, notes, or other borrowings that are attributable to the acquisition, construction, or improvement of those assets.
- 2. Restricted Net Position Restrictions of the ending net position indicate the portions of net position not appropriable for expenditure or amounts legally segregated for a specific future use. The restriction for legally restricted programs represents the portion of net position restricted to specific program expenditures. The restriction for debt service represents the portion of net position available for the retirement of debt. The restriction for capital projects represents the portion of net position restricted for capital projects. It is the District's policy to use restricted net position first when allowable expenditures are incurred.
- 3. Unrestricted Net Position All other net position that do not meet the definitions of "restricted" or "net investment in capital assets".

<u>Fund Balance Classifications</u>: Governmental Accounting Standards Board Codification Sections 1300 and 1800, *Fund Balance Reporting and Governmental Fund Type Definitions* (GASB Cod. Sec. 1300 and 1800) implements a five-tier fund balance classification hierarchy that depicts the extent to which a government is bound by spending constraints imposed on the use of its resources. The five classifications, discussed in more detail below, are nonspendable, restricted, committed, assigned and unassigned.

### A - Nonspendable Fund Balance:

The nonspendable fund balance classification reflects amounts that are not in spendable form, such as revolving fund cash, stores inventory and prepaid expenditures.

### B - Restricted Fund Balance

The restricted fund balance classification reflects amounts subject to externally imposed and legally enforceable constraints. Such constraints may be imposed by creditors, grantors, contributors, or laws or regulations of other governments, or may be imposed by law through constitutional provisions or enabling legislation. These are the same restrictions used to determine restricted net position as reported in the government-wide and fiduciary trust fund statements.

#### C - Committed Fund Balance

The committed fund balance classification reflects amounts subject to internal constraints self-imposed by formal action of the Board of Trustees. The constraints giving rise to committed fund balance must be imposed no later than the end of the reporting period. The actual amounts may be determined subsequent to that date but prior to the issuance of the financial statements. Formal action by the Board of Trustees is required to remove any commitment from any fund balance. However, deficits in any fund, including the General Fund, that cannot be eliminated by reducing or eliminating amounts assigned to other purposes are reported as negative unassigned fund balance.

#### NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

#### D - Assigned Fund Balance

The assigned fund balance classification reflects amounts that the District's Board of Education has approved to be used for specific purposes, based on the District's intent related to those specific purposes. The Board of Trustees can designate personnel with the authority to assign fund balances. In 2011, the Board designated the Superintendent and the Deputy Superintendent, Business, with this authority.

## E - Unassigned Fund Balance

In the General Fund only, the unassigned fund balance classification reflects the residual balance that has not been assigned to other funds and that is not restricted, committed, or assigned to specific purposes.

In any fund other than the General Fund, a positive unassigned fund balance is never reported because amounts in any other fund are assumed to have been assigned, at least, to the purpose of that fund. However, deficits in any fund, including the General Fund, that cannot be eliminated by reducing or eliminating amounts assigned to other purposes are reported as negative unassigned fund balance.

<u>Fund Balance Policy</u>: The District has an expenditure policy relating to fund balances. For purposes of fund balance classifications, expenditures are to be spent from restricted fund balances first, followed in order by committed fund balances (if any), assigned fund balances and lastly unassigned fund balances.

While GASB Cod. Sec. 1300 and 1800 do not require Districts to establish a minimum fund balance policy or a stabilization arrangement, GASB Cod. Sec. 1300 and 1800 do require the disclosure of a minimum fund balance policy and stabilization arrangements, if they have been adopted by the Board of Education. At June 30, 2019, the District has not established a minimum fund balance policy, nor has it established a stabilization arrangement.

<u>Property Taxes</u>: Secured property taxes are attached as an enforceable lien on property as of March1. Taxes are due in two installments on or before December 10 and April 10. Unsecured property taxes are due in one installment on or before August 31. The County of Placer bills and collects taxes for the District. Tax revenues are recognized by the District when received.

<u>Encumbrances</u>: Encumbrance accounting is used in all budgeted funds to reserve portions of applicable appropriations for which commitments have been made. Encumbrances are recorded for purchase orders, contracts, and other commitments when they are written. Encumbrances are liquidated when the commitments are paid. All encumbrances are liquidated at June 30.

<u>Eliminations and Reclassifications</u>: In the process of aggregating data for the Statement of Net Position and the Statement of Activities, some amounts reported as interfund activity and balances in the funds were eliminated or reclassified. Interfund receivables and payables were eliminated to minimize the "grossing up" effect on assets and liabilities within the governmental activities column.

<u>Estimates</u>: The preparation of basic financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions. These estimates and assumptions affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenditures during the reporting period. Accordingly, actual results may differ from those estimates.

#### **NOTE 2 - CASH AND INVESTMENTS**

Cash and investments at June 30, 2020 consisted of the following:

	Governmental <u>Funds</u>	Fiduciary <u>Activities</u>
Pooled funds: Cash in County Treasury	\$ 62,106,832	\$ 8,592,140
Deposits:		
Cash on hand and in banks	151,148	1,719,036
Cash in revolving fund	10,700	
Total deposits	161,848	1,719,036
Cash with Fiscal Agent	14,092,431	
Total	\$ 76,361,111	\$ 10,311,176

<u>Pooled Funds</u>: In accordance with Education Code Section 41001, the District maintains substantially all of its cash in the interest-bearing Placer County Treasurer's Pooled Investment Fund. The District is considered to be an involuntary participant in an external investment pool. The fair value of the District's investment in the pool is reported in the financial statements at amounts based upon the District's prorata share of the fair value provided by the County Treasurer for the entire portfolio (in relation to the amortized cost of that portfolio). The balance available for withdrawal is based on the accounting records maintained by the County Treasurer, which is recorded on the amortized cost basis.

<u>Deposits - Custodial Credit Risk</u>: The District limits custodial credit risk by ensuring uninsured balances are collateralized by the respective financial institution. Cash balances held in banks are insured up to \$250,000 by the Federal Deposit Insurance Corporation (FDIC) and are collateralized by the respective financial institution. As of June 30, 2020, the carrying amount of the District's accounts were \$1,880,884 and bank balances were \$1,903,163, of which \$780,892 was insured.

<u>Cash with Fiscal Agent</u>: Cash with Fiscal Agent in the Capital Projects for Blended Component Unit Fund totaling \$12,557,405 is the amount held by a fiscal agent to fund capital projects. Cash with Fiscal Agent in the Capital Facilities Fund totaling \$1,522,883 is the amount held by a fiscal agent to fund capital projects. Cash with Fiscal Agent in the General Fund totaling \$12,143 is the amount held by a fiscal agent for payroll flex funding deposit account.

<u>Interest Rate Risk</u>: The District does not have a formal investment policy that limits cash and investment maturities as a means of managing its exposure to fair value losses arising from increasing interest rates. At June 30, 2020, the District had no significant interest rate risk related to cash and investments held.

<u>Credit Risk</u>: The District does not have a formal investment policy that limits its investment choices other than the limitations of state law.

<u>Concentration of Credit Risk</u>: The District does not place limits on the amount it may invest in any one issuer. At June 30, 2020, the District had no concentration of credit risk.

<u>Interfund Activity</u>: Transactions between funds of the District for goods and services are recorded as interfund transfers. The unpaid balances at year end, as a result of such transactions, are shown as due to and due from other funds.

## **NOTE 3 – INTERFUND TRANSACTIONS**

<u>Interfund Receivables/Payables</u>: Individual interfund receivable and payable balances at June 30, 2020 were as follows::

#### NOTE 5 - LONG-TERM LIABILITIES (Continued)

<u>Certificates of Participation</u>: The District issued Certificates of Participation (COPs) in the amount of \$19,890,000 during the 2006-07 fiscal year. During the year ended June 30, 2014, the District made a \$5,500,000 principal payment, including a \$4,970,000 partial redemption approved by the Board. The District issued COPs in the amount of \$6,750,000 during the 2018-19 fiscal year. Lastly, the District issued COPs in the amount of \$14,159,000 to refund the Series 2006 COPs in their entirety. On June 30, 2020, \$13,880,000 of the Series 2006 COPs outstanding are considered defeased:

#### NOTE 7 - NET PENSION LIABILITY - STATE TEACHERS' RETIREMENT PLAN

General Information about the State Teachers' Retirement Plan

<u>Plan Description</u>: Teaching-certified employees of the District are provided with pensions through the State Teachers' Retirement Plan (STRP) – a cost-sharing multiple-employer defined benefit pension plan administered by the California State Teachers' Retirement System (CalSTRS). The Teachers' Retirement Law (California Education Code Section 22000 et seq.), as enacted and amended by the California Legislature, established this plan and CalSTRS as the administrator. The benefit terms of the plans may be amended through legislation. CalSTRS issues a publicly available financial report that can be obtained at http://www.calstrs.com.

Benefits Provided: The STRP Defined Benefit Program has two benefit formulas:

- CalSTRS 2% at 60: Members first hired on or before December 31, 2012, to perform service that could be creditable to CalSTRS.
- CalSTRS 2% at 62: Members first hired on or after January 1, 2013, to perform service that could be creditable to CalSTRS.

The Defined Benefit (DB) Program provides retirement benefits based on members' final compensation, age and years of service credit. In addition, the retirement program provides benefits to members upon disability and to survivors/beneficiaries upon the death of eligible members. There are several differences between the two benefit formulas which are noted below.

CalSTRS 2% at 60 - CalSTRS 2% at 60 members are eligible for normal retirement at age 60, with a minimum of five years of credited service. The normal retirement benefit is equal to 2.0 percent of final compensation for each year of credited service. Early retirement options are available at age 55 with five years of credited service or as early as age 50 with 30 years of credited service. The age factor for retirements after age 60 increases with each quarter year of age to 2.4 percent at age 63 or older. Members who have 30 years or more of credited service receive an additional increase of up to 0.2 percent to the age factor, known as the career factor. The maximum benefit with the career factor is 2.4 percent of final compensation.

CalSTRS calculates retirement benefits based on a one-year final compensation for members who retired on or after January 1, 2001, with 25 or more years of credited service, or for classroom teachers with less than 25 years of credited service if the employer elected to pay the additional benefit cost prior to January1, 2014. One-year final compensation means a member's highest average annual compensation earnable for 12 consecutive months calculated by taking the creditable compensation that a member could earn in a school year while employed on a full-time basis, for a position in which the person worked. For members with less than 25 years of credited service, final compensation is the highest average annual compensation earnable for any 36 consecutive months of credited service.

CalSTRS 2% at 62 - CalSTRS 2% at 62 members are eligible for normal retirement at age 62, with a minimum of five years of credited service. The normal retirement benefit is equal to 2.0 percent of final compensation for each year of credited service. An early retirement option is available at age 55. The age factor for retirement after age 62 increases with each quarter year of age to 2.4 percent at age 65 or older.

All CalSTRS 2% at 62 members have their final compensation based on their highest average annual compensation earnable for 36 consecutive months of credited service.

#### NOTE 7 - NET PENSION LIABILITY - STATE TEACHERS' RETIREMENT PLAN (Continued)

<u>Contributions</u>: Required member, employer and state contribution rates are set by the California Legislature and Governor and detailed in Teachers' Retirement Law. Contribution rates are expressed as a level percentage of payroll using the entry age normal actuarial cost method.

In June 2019, California Senate Bill 90 (SB 90) was signed into law and appropriated approximately \$2.2 billion in fiscal year 2018–19 from the state's General Fund as contributions to CalSTRS on behalf of employers. The bill requires portions of the contribution to supplant the amounts remitted by employers such that the amounts remitted will be 1.03 and 0.70 percentage points less than the statutorily required amounts due for fiscal years 2019–20 and 2020–21, respectively. The remaining portion of the contribution, approximately \$1.6 billion, was allocated to reduce the employers' share of the unfunded actuarial obligation of the DB Program.

California Assembly Bill 84, Chapter 16, Statutes of 2020, (AB 84) was signed into law in June 2020 and revised certain provisions of Teachers' Retirement Law enacted by SB 90. Specifically, AB 84 repurposed the aforementioned \$1.6 billion contribution originally intended to reduce employers' long-term liabilities, to further supplant employer contributions through fiscal year 2021–22. Pursuant to AB 84, employers will remit contributions to CalSTRS based on a rate that is 2.95% less than the statutory rate for fiscal year 2020–21 and 2.18% less than the rate set by the board for fiscal year 2021–22. Any remaining amounts must be allocated to reduce the employers' share of the unfunded actuarial obligation of the DB Program. The rate reduction for fiscal year 2019-20 under SB 90 was not changed by AB 84. The employer contribution rates set in statute and the CalSTRS board's authority to adjust those rates starting in fiscal year 2021–22 under the CalSTRS Funding Plan were not changed by the passage of SB 90 or AB 84. A summary of statutory contribution rates and other sources of contributions to the DB Program are as follows:

Members - Under CalSTRS 2% at 60, the member contribution rate was 10.25 percent of applicable member earnings for fiscal year 2019-20. Under CalSTRS 2% at 62, members contribute 50 percent of the normal cost of their retirement plan, which resulted in a contribution rate of 10.205 percent of applicable member earnings for fiscal year 2019-20.

In general, member contributions cannot increase unless members are provided with some type of "comparable advantage" in exchange for such increases. Under previous law, the Legislature could reduce or eliminate the 2 percent annual increase to retirement benefits. As a result of AB 1469, effective July 1, 2014, the Legislature cannot reduce the 2 percent annual benefit adjustment for members who retire on or after January 1, 2014, and in exchange for this "comparable advantage," the member contribution rates have been increased by an amount that covers a portion of the cost of the 2 percent annual benefit adjustment.

*Employers* – 17.10 percent of applicable member earnings. This rate reflects the original employer contribution rate of 18.13 percent under AB1469, reduced for the 1.03 percentage points to be paid on behalf of employers pursuant to SB 90.

Pursuant to AB 1469, employer contributions will increase from a prior rate of 8.25 percent to a total of 19.1 percent of applicable member earnings phased in over seven years starting in 2014. The legislation also gives the CalSTRS board limited authority to adjust employer contribution rates from July 1, 2021 through June 2046 in order to eliminate the remaining unfunded actuarial obligation related to service credited to members prior to July 1, 2014. The CalSTRS board cannot adjust the rate by more than 1 percent in a fiscal year, and the total contribution rate in addition to the 8.25 percent cannot exceed 12 percent.

## NOTE 7 – NET PENSION LIABILITY – STATE TEACHERS' RETIREMENT PLAN (Continued)

The CalSTRS employer contribution rate increases effective for fiscal year 2019-20 through fiscal year 2045-46 are summarized in the table below:

Effective Date	Prior Rate	<u>Increase</u>	<u>Total</u>
July 01, 2019	8.25%	9.88%	17.10% <sup>(1)</sup>
July 01, 2020	8.25%	10.85%	16.15% <sup>(1)</sup>

June 30, 2046	8.25%	(2)	(2)
July 01, 2046	8.25%	Increase from prior ra	ate ceases in 2046-47

<sup>(1)</sup> Pursuant to SB 90 and AB 84, the fiscal year 2018-19 state contribution of approximately \$2.2 billion made in advance on behalf of employers will be used to pay the contributions required by employers for the 2019-20, 2020-21 and 2021-22 fiscal years, such that employers will remit 1.030%, 2.950% and 2.180% less, respectively, than is required by the CalSTRS Funding Plan.

The District contributed \$10,724,334 to the plan for the fiscal year ended June 30, 2020.

State – 10.328 percent of the members' creditable earnings from the fiscal year ending in the prior calendar year.

Also, as a result of AB1469, the additional state appropriation required to fully fund the benefits in effect as of 1990 by 2046 is specific in subdivision (b) of Education Code Section 22955.1. The increased contributions end as of fiscal year 2045-2046.

The state's base contribution of the Defined Benefit Program is calculated based on creditable compensation from two fiscal years prior. The state rate increased to 5.811% on July 1, 2019, to continue paying down the unfunded liabilities associated with the benefits structure that was in place in 1990 prior to certain enhancements in benefits reductions in contributions. Additionally, the enactment SB 90 will result in future supplemental contributions to be made by the state to pay down its portion of the unfunded actuarial obligation of the Defined benefit Program in fiscal years 2019-20 through 2022-23.

<sup>(2)</sup> The CalSTRS Funding Plan authorizes the board to adjust the employer contribution rate up or down 1% each year, but no higher than 20.25% total and no lower than 8.25%

## NOTE 7 – NET PENSION LIABILITY – STATE TEACHERS' RETIREMENT PLAN (Continued)

The CalSTRS state contribution rates effective for fiscal year 2019-2020 and beyond are summarized in the table below.

- (1) This rate does not include the \$72 million reduction in accordance with Education Code Section 22954.
- (2) This rate does not include the \$2.2 billion supplemental state contribution on behalf of employers pursuant to SB 90.
- (3) In May 2020, the CalSTRS board exercised its limited authority to increase the state contribution rate by 0.5% of the creditable compensation effective July 1, 2020. However, pursuant to AB 84, the state suspended the board's rate-setting authority for state contributions for fiscal year 2020–21, thereby negating the board's rate increase of 0.5%.
- (4) The CalSTRS board has limited authority to adjust state contribution rates annually through June 30, 2046 in order to eliminate the remaining unfunded actuarial obligation associated with the 1990 benefit structure. The board cannot increase the rate by more than 0.50 percent in a fiscal year, and if there is no unfunded actuarial obligation, the contribution rate imposed to pay for the 1990 benefit structure would be reduced to 0 percent.
- (5) From July 1, 2046, and thereafter, the rates in effect prior to July 1, 2014, are reinstated, if necessary, to address any remaining 1990 unfunded actuarial obligation.

# Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

At June 30, 2020, the District reported a liability for its proportionate share of the net pension liability that reflected a reduction for State pension support provided to the District. The amount recognized by the District as its proportionate share of the net pension liability, the related State support, and the total portion of the net pension liability that was associated with the District were as follows:

District's proportionate share of the net pension liability	\$ 99,432,000
State's proportionate share of the net pension liability	
associated with the District	 54,247,000
Total	\$ 153,679,000

The net pension liability was measured as of June 30, 2019, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of June 30, 2018. The District's proportion of the net pension liability was based on the District's share of contributions to the pension plan relative to the contributions of all participating school Districts and the State. At June 30, 2019, the District's proportion was 0.110 percent, which as an increase of 0.010 percent from its proportion measured as of June 30, 2018.

## NOTE 7 – NET PENSION LIABILITY – STATE TEACHERS' RETIREMENT PLAN (Continued)

For the year ended June 30, 2020, the District recognized pension expense of \$23,409,842 and revenue of \$9,133,912 for support provided by the State. At June 30, 2020, the District reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	 erred Outflows f Resources	 ferred Inflows f Resources
Difference between expected and actual experience	\$ 251,000	\$ 2,802,000
Changes of assumptions	12,576,000	-
Net differences between projected and actual earnings on investments	-	3,830,000
Changes in proportion and differences between District contributions and proportionate share of contributions	9.858.000	065 000
	-,,	965,000
Contributions made subsequent to measurement date	 10,724,334	 
Total	\$ 33,409,334	\$ 7,597,000

\$10,724,334 reported as deferred outflows of resources related to pensions resulting from contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ended June 30, 2021. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

Year Ending	
<u>June 30,</u>	
2021	\$ 3,829,600
2022	\$ 1,173,600
2023	\$ 3,360,600
2024	\$ 4,601,267
2025	\$ 1,264,767
2026	\$ 858,166

Differences between expected and actual experience and changes in assumptions are amortized over a closed period equal to the average remaining service life of plan members, which is 7 years as of the June 30, 2019 measurement date. Deferred outflows and inflows related to differences between projected and actual earnings on plan investments are netted and amortized over a closed 5-year period.

## NOTE 7 - NET PENSION LIABILITY - STATE TEACHERS' RETIREMENT PLAN (Continued)

Actuarial Methods and Assumptions: The total pension liability for the STRP was determined by applying update procedures to a financial reporting actuarial valuation as of June 30, 2018 and rolling forward the total pension liability to June 30, 2019. The financial reporting actuarial valuation as of June 30, 2018, used the following actuarial methods and assumptions, applied to all prior periods included in the measurement:

Valuation Date	June 30, 2018
Experience Study	July 1, 2010 through June 30, 2015
Actuarial Cost Method	Entry age normal
Investment Rate of Return	7.10%
Consumer Price Inflation	2.75%
Wage Growth	3.50%
Post-retirement Benefit Increases	2.00% simple for DB
	Not applicable for DBS/CBB

CalSTRS uses a generational mortality assumption, which involves the use of a base mortality table and projection scales to reflect expected annual reductions in mortality rates at each age, resulting in increases in life expectancies each year into the future. The base mortality tables are CalSTRS custom tables derived to best fit the patterns of mortality among its members. The projection scale was set equal to 110 percent of the ultimate improvement factor from the Mortality Improvement Scale (MP-2016) table, issued by the Society of Actuaries.

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. The best estimate ranges were developed using capital market assumptions from CalSTRS general investment consultant as an input to the process. The actuarial investment rate of return assumption was adopted by the CalSTRS board in February 2017 in conjunction with the most recent experience study. For each future valuation, CalSTRS consulting actuary reviews the return assumption for reasonableness based on the most current capital market assumptions. Best estimates of 20-year geometric real rates of return and the assumed asset allocation for each major asset class used as input to develop the actuarial investment rate of return are summarized in the following table:

Asset Class	Assumed Asset Allocation	Long-Term* Expected Real Rate of Return
Global Equity	47%	4.8%
Fixed Income	12	1.3
Real Estate Assets	13	3.6
Private Equity	13	6.3
Absolute Return / Risk		
Mitigating Strategies	9	1.8
Inflation Sensitive	4	3.3
Cash / Liquidity	2	(0.4)

<sup>\* 20-</sup>year geometric average

## NOTE 7 – NET PENSION LIABILITY – STATE TEACHERS' RETIREMENT PLAN (Continued)

<u>Discount Rate</u>: The discount rate used to measure the total pension liability was 7.10 percent. The projection of cash flows used to determine the discount rate assumed that contributions from plan members and employers will be made at statutory contribution rates in accordance with the rate increase per AB 1469. Projected inflows from investment earnings were calculated using the long-term assumed investment rate of return (7.10 percent) and assuming that contributions, benefit payments, and administrative expense occur midyear. Based on those assumptions, the STRP's fiduciary net position was projected to be available to make all projected future benefit payments to current plan members. Therefore, the long-term assumed investment rate of return was applied to all periods of projected benefit payments to determine the total pension liability.

Sensitivity of the District's Proportionate Share of the Net Pension Liability to Changes in the Discount Rate: The following presents the District's proportionate share of the net pension liability calculated using the discount rate of 7.10 percent, as well as what the District's proportionate share of the net pension liability would be if it were calculated using a discount rate that is 1-percentage-point lower (6.10 percent) or 1-percentage-point higher (8.10 percent) than the current rate:

	1%	Current	1%
	Decrease	Discount	Increase
	<u>(6.10%)</u>	Rate (7.10%)	<u>(8.10%)</u>
District's proportionate share of			
the net pension liability	\$ 148,063,000	\$ 99,432,000	\$ 59,108,000

<u>Pension Plan Fiduciary Net Position</u>: Detailed information about the pension plan's fiduciary net position is available in the separately issued CalSTRS financial report.

#### NOTE 8 - NET PENSION LIABILITY - PUBLIC EMPLOYER'S RETIREMENT FUND B

General Information about the Public Employer's Retirement Fund B

The schools cost-sharing multiple-employer defined benefit pension plan Public Employer's Retirement Fund B (PERF B) is administered by the California Public Employees' Retirement System (CalPERS). Plan membership consists of non-teaching and non-certified employees of public schools (K-12), community college districts, offices of education, charter and private schools (elective) in the State of California.

The Plan was established to provide retirement, death and disability benefits to non-teaching and non-certified employees in schools. The benefit provisions for Plan employees are established by statute. CalPERS issues a publicly available financial report that can be obtained at

https://www.calpers.ca.gov/docs/forms-publications/cafr- 2019.pdf.

<u>Benefits Provided</u>: The benefits for the defined benefit plans are based on members' years of service, age, final compensation, and benefit formula. Benefits are provided for disability, death, and survivors of eligible members or beneficiaries. Members become fully vested in their retirement benefits earned to date after five years (10 years for State Second Tier members) of credited service.

<u>Contributions</u>: The benefits for the defined benefit pension plans are funded by contributions from members and employers, and earnings from investments. Member and employer contributions are a percentage of applicable member compensation. Member contribution rates are defined by law and depend on the respective employer's benefit formulas. Employer contribution rates are determined by periodic actuarial valuations or by state statute. Actuarial valuations are based on the benefit formulas and employee groups of each employer. Employer contributions, including lump sum contributions made when district's first join the PERF B, are credited with a market value adjustment in determining contribution rates.

The required contribution rates of most active plan members are based on a percentage of salary in excess of a base compensation amount ranging from zero dollars to \$863 monthly The required contribution rates of most active plan members are based on a percentage of salary in excess of a base compensation amount ranging from zero dollars to \$863 monthly.

Required contribution rates for active plan members and employers as a percentage of payroll for the year ended June 30, 2020 were as follows:

*Members* - The member contribution rate was 7.00 percent of applicable member earnings for fiscal year 2019-2020.

Employers - The employer contribution rate was 19.72 percent of applicable member earnings.

The District contributed \$3,323,057 to the plan for the fiscal year ended June 30, 2020.

#### NOTE 8 - NET PENSION LIABILITY - PUBLIC EMPLOYER'S RETIREMENT FUND B (Continued)

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

At June 30, 2020, the District reported a liability of \$32,676,000 for its proportionate share of the net pension liability. The net pension liability was measured as of June 30, 2019, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of June 30, 2018. The District's proportion of the net pension liability was based on the District's share of contributions to the pension plan relative to the contributions of all participating school Districts. At June 30, 2019, the District's proportion was 0.112 percent, which was an increase of 0.003 percent from its proportion measured as of June 30, 2018.

For the year ended June 30, 2020, the District recognized pension expense of \$7,495,386. At June 30, 2020, the District reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	 red Outflows Resources	 red Inflows esources
Difference between expected and actual experience	\$ 2,374,000	\$ -
Changes of assumptions	1,555,000	-
Net differences between projected and actual earnings on investments	-	303,000
Changes in proportion and differences between District contributions and proportionate share of contributions	682,000	-
Contributions made subsequent to measurement date	 3,323,057	 <u>-</u>
Total	\$ 7,934,057	\$ 303,000

\$3,323,057 reported as deferred outflows of resources related to pensions resulting from contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ended June 30, 2021. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

Year Ending	
<u>June 30,</u>	
2021	\$ 3,056,416
2022	\$ 677,417
2023	\$ 488,417
2024	\$ 85,750

Differences between expected and actual experience and changes in assumptions are amortized over a closed period equal to the average remaining service life of plan members, which is 4 years as of the June 30, 2019 measurement date. Deferred outflows and inflows related to differences between projected and actual earnings on plan investments are netted and amortized over a closed 5-year period.

#### NOTE 8 - NET PENSION LIABILITY - PUBLIC EMPLOYER'S RETIREMENT FUND B (Continued)

Actuarial Methods and Assumptions: The total pension liability for the Plan was determined by applying update procedures to a financial reporting actuarial valuation as of June 30, 2018, and rolling forward the total pension liability to June 30, 2019. The financial reporting actuarial valuation as of June 30, 2018, used the following actuarial methods and assumptions, applied to all prior periods included in the measurement:

> Valuation Date June 30, 2018 Experience Study June 30, 1997 through June 30, 2015 **Actuarial Cost Method** Entry age normal Investment Rate of Return 7.15% Consumer Price Inflation 2.50% Wage Growth Varies by entry age and service Post-retirement Benefit Increases Contract COLA up to 2.00% until Purchasing Power Protection Allowance Floor on Purchasing Power applies 2.50% thereafter

The mortality table used was developed based on CalPERS specific data. The table includes 15 years of mortality improvements using Society of Actuaries 90% of scale MP 2016. For more details on this table, please refer to the 2017 experience study report.

All other actuarial assumptions used in the June 30, 2018 valuation were based on the results of an actuarial experience study for the period from 1997 to 2015, including updates to salary increase, mortality and retirement rates. Further details of the Experience Study can be found at CalPERS' website.

The table below reflects long-term expected real rate of return by asset class. The rate of return was calculated using the capital market assumptions applied to determine the discount rate and asset allocation.

	Long-Term* Assumed Asset	Expected Real Rate of Return	Expected Real Rate of Return
Asset Class	<u>Allocation</u>	Years 1-10 (1)	Years 11+(2)
Global Equity	50%	4.80%	5.98%
Fixed Income	28	1.00	2.62

Private Equity	8	6.30	7.23
Real Estate Assets	13	3.75	4.93
Liquidity	1	-	(0.92)

<sup>\* 10-</sup>year geometric average

Discount Rate: The discount rate used to measure the total pension liability was 7.15 percent. A projection of the expected benefit payments and contributions was performed to determine if assets would run out. The test revealed the assets would not run out. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability for the Plan. The results of the crossover testing for the Plan are presented in a detailed report that can be obtained at CalPERS' website.

<sup>(1)</sup> An expected inflation rate of 2.00% used for this period(2) An expected inflation rate of 2.92% used for this period

#### NOTE 8 - NET PENSION LIABILITY - PUBLIC EMPLOYER'S RETIREMENT FUND B (Continued)

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class.

In determining the long-term expected rate of return, CalPERS took into account both short-term and long-term market return expectations as well as the expected cash flows of the Plan. Such cash flows were developed assuming that both members and employers will make their required contributions on time and as scheduled in all future years. Using historical returns of all the Plan's asset classes, expected compound (geometric) returns were calculated over the short-term (first 10 years) and the long-term (11+ years) using a building-block approach. Using the expected nominal returns for both short-term and long-term, the present value of benefits was calculated. The expected rate of return was set by calculating the rounded single equivalent expected return that arrived at the same present value of benefits for cash flows as the one calculated using both short-term and long-term returns. The expected rate of return was then set equivalent to the single equivalent rate calculated above and adjusted to account for assumed administrative expenses.

Sensitivity of the District's Proportionate Share of the Net Pension Liability to Changes in the Discount Rate: The following presents the District's proportionate share of the net pension liability calculated using the discount rate of 7.15 percent, as well as what the District's proportionate share of the net pension liability would be if it were calculated using a discount rate that is 1-percentage-point lower (6.15 percent) or 1-percentage-point higher (8.15 percent) than the current rate:

	1% Decrease (6.15%)	Current Discount Rate (7.15%)	1% Increase (8.15%)
District's proportionate share of the net pension liability	\$ 47,100,000	\$ 32,676,000	\$ 20,710,000

<u>Pension Plan Fiduciary Net Position</u>: Detailed information about the pension plan's fiduciary net position is available in the separately issued CalPERS financial report.

#### **NOTE 9 - OTHER POSTEMPLOYMENT BENEFITS**

<u>Plan Description</u>: In addition to the pension benefits described in Notes 7 and 8, the District provides postemployment health care benefits under a single employer defined benefit OPEB plan to eligible retirees and their spouses through an implicit rate subsidy for all retirees who elect to purchase benefits at the District's negotiated insurance premium rates. The plan does not issue separate financial statements.

The Rocklin Unified School District's Retiree Health Care Plan (Plan) is a single-employer defined benefit postemployment health care plan that covers eligible retired employees of the District. The Plan, which is administered by the District, allows employees who retire and meet retirement eligibility requirements under one of the District's retirement plan to continue medical, dental and life insurance coverage as a participant in the District's plan. The District's Governing Board has the authority to establish or amend the benefit terms offered by the Plan. The District's Governing Board also retains the authority to establish the requirements for paying the Plan benefits as they come due. During the year ended June 30, 2006 the District signed an irrevocable trust (the Trust) agreement and began accumulating funds in the Retiree Benefits Fund. The District's superintendent or designee is acting as the Trust administrator, the Rocklin Board of Trustees (the Board) has been designated as the trustee and fiduciary, and the Placer County Treasurer-Tax Collector is serving as the custodial agent.

Employees Covered by Benefit Terms: The following is a table of plan participants at June 30, 2020:

<u>Benefits Provided</u>: The District provides post-employment healthcare benefits to all employees who retire at age fifty-five (55) with fifteen years of service under a single employer defined benefit OPEB plan. The plan does not issue separate financial statements. These benefits are paid as the expense is incurred. The following is a description of the current retiree benefit plan:

	<u>Certificated</u>	<u>Classified</u>	<u>Confidential</u>

<sup>\*\*\*</sup>Employees hired before December 1, 1993 are eligible for lifetime coverage

#### NOTE 9 - OTHER POSTEMPLOYMENT BENEFITS (Continued)

<u>Contributions</u>: California Government Code specifies that the District's contribution requirements for covered employees are established and may be amended by the Governing Board. The contribution requirements of plan members and the District are established and may be amended by the Board and by contractual agreement with employee groups. The District's plan members are not required to contribute to the plan. The June 30, 2020 contributions consist of \$360,595 paid from the General Fund to the Retiree Benefits Fund. Additionally, the trustee may amend or modify the benefits if the contributions to the trust and reserves of the trust are insufficient to maintain the benefits of participants and dependents.

<u>OPEB Plan Investments</u>: The District Board of Trustees authorized the District's Chief Fiscal Officer to invest and reinvest surplus funds on behalf of the District and the Plan. The Board recognizes that the District's Chief Fiscal Officer has fiduciary responsibility for any funds invested outside the county treasury and is subject to prudent investor standards for all investment decisions. As such, he/she shall act with care, skill, prudence and diligence under the prevailing circumstances, including but not limited to the general economic conditions and the anticipated needs of the district. The investment objectives shall be to first safeguard the principal of the funds, then meet the district's liquidity needs and, third, to achieve a return on the funds.

The plan discount rate of 6% was determined using the following asset allocation and assumed rate of return presented as geometric means:

Asset Class	Percentage of <u>Portfolio</u>	Assumed Real Rate of Return
Intermediate-Term Government Bonds	25	4.500%
Long-Term Corporate Bonds	25	5.295%
Long-Term Government Bonds	25	4.500%
Short-Term Government Bonds	25	3.250%

Rolling periods of time for all asset classes in combination we used to appropriately reflect correlation between asset classes. This means that the average returns for any asset class do not necessarily reflect the averages over time individually, but reflect the return for the asset class for the portfolio average. Additionally, the historic 30-year real rates of return for each asset class along with the assumed long-term inflation assumption was used to set the discount rate. The investment return was offset by assumed investment expenses of 25 basis points. It was further assumed that contributions to the plan would be sufficient to fully fund the obligation over a period not to exceed 30 years. The moneyweighted rate of return on plan assets was 1.71% for the year ended June 30, 2020.

Total OPEB Liability - The District's total OPEB liability was measured as of June 30, 2020, and the total OPEB liability used to calculate the net OPEB liability was determined by an actuarial valuation as of June 30, 2020.

#### NOTE 9 - OTHER POSTEMPLOYMENT BENEFITS (Continued)

<u>Actuarial Assumptions</u>: The total OPEB liability in the June 30, 2020 actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement, unless otherwise specified:

Valuation date: June 30, 2020

<u>Census data</u>: The census was provided by the District as of

June 30, 2019

Differences between projected and actual earnings on investment are amortized over a closed period of 4 years as of the June 30, 2020 measurement date.

#### **NOTE 10 – JOINT POWERS AUTHORITIES**

<u>Schools Insurance Group</u>: The District is a member of a Joint Powers Authority, Schools Insurance Group (SIG), for the operation of common risk management and insurance program. The program covers workers' compensation, property/liability, and health and welfare insurance. The membership includes the school districts in Placer and Nevada counties and their respective County Offices of Education. SIG is governed by an Executive Board consisting of representatives from member districts. The Executive Board controls the operation of SIG, including selections of management and approval of operating budgets. Settled claims resulting from these risks have not exceeded commercial coverage in any of the past three years. There have been no significant reductions in insurance coverage in the prior year.

Condensed financial information for SIG for the year ended June 30, 2019, is as follows:

Total assets	\$ 104,966,647
Total deferred outflows of resources	\$ 302,925
Total liabilities	\$ 38,704,856
Total deferred inflows of resources	\$ 68,338
Net position	\$ 66,496,378
Total revenues	\$ 92,255,000
Total expenses	\$ 91,961,717
Change in net position	\$ 293,283

Southern Placer School Transportation Authority: The District is also a member of the Southern Placer School Transportation Authority (SPSTA), a Joint Powers Authority established for the operation of pupil transportation maintenance services and classroom facilities. The District is a member with Eureka Union School District. Each member district has representatives on the Governing Board. Each member of that Board has equal voting rights. The Governing Board has decision-making authority, which includes the power to designate management, and the ability to significantly influence operations. The District has advanced the SPSTA funds to facilitate land banking for future District school site development. The balance at June 30, 2020 was \$7,894,364 and it is recorded in the Capital Project Blended Components Units Fund as an advance receivable.

Condensed financial information for SPSTA for the year ended June 30, 2019, is as follows:

Total assets	\$ 9,856,793
Total liabilities	\$ 7,894,364
Total net position	\$ 1,962,429
Total revenues	\$ 55,529
Total expenses	\$ 10,716
Change in net position	\$ 44,813

Complete separate financial statements for either JPA may be obtained at the District office at 2615 Sierra Meadows Drive, Rocklin, CA 95677.

#### **NOTE 11 - ADVANCE RECEIVABLE**

On November 1, 2006, the District entered into an agreement with Southern Placer Schools Transportation Authority (the "Authority") and issued an advance of \$16,010,441 funded by the District's \$19,890,000 2006 Certificates of Participation (Property Acquisition Financing), for the purpose of assisting the Authority in the acquisition of school sites. The 2006 Certificates of Participation include a provision for the use of leased property. Payment of this advance will occur at such time(s) that the District determines the need for the school site(s) and title is transferred from the Authority to the District or upon determination by the District not to acquire title and the subsequent disposal of sites upon terms mutually agreeable to the District and the Authority. As of the year ended June 30, 2020, \$7,894,364 remains with the Authority.

#### **NOTE 12 - CONTINGENCIES**

The District is subject to legal proceedings and claims which arise in the ordinary course of business. In the opinion of management, the amount of ultimate liability with respect to these actions will not materially affect the financial statements or results of operations of the District.

The District has received federal and state funds for specific purposes that are subject to review and audit by the grantor agencies. Although such audits could result in expenditure disallowance's under terms of the grants, it is management's opinion that any required reimbursements or future revenue offsets subsequently determined will not have a material effect on the District's financial statements or results of operations.

#### **NOTE 13 - COVID-19 IMPACT**

In December 2019, a novel strain of coronavirus surfaced (COVID-19) and spread around the world, with resulting business and social disruption. In response to the pandemic and in compliance with various state and local ordinances, the District closed physical campuses and transitioned to a distance learning model. On March 13, 2020, the Governor of California issued Executive Order N-26 – 20, guaranteeing state funding to support the continued payment of salaries and benefits to all employees through June 30, 2020.

The operations and business results of the District could be adversely affected in the future including a reduction in the level of funding and impact to the timing of cash flows. In addition, significant estimates may be adversely impacted by national, state and local events designed to contain the coronavirus. Debt ratings for outstanding issuances may further be impacted. For the 2021 school year, the District is offering instruction in formats consistent with local health guidelines. Throughout the pandemic the District has put into practice a number of safety measures to protect students and employees and will continue to revise them as needed. The State of California has adopted a budget that continues funding to school districts at a rate commensurate with funding levels of the 2020 school year, on a stated payment schedule. Further legislation has been adopted to provide for additional on behalf payments of certain pension liability payments through the next two fiscal years. The District has reflected each of these measures in their budgeting process.

## ROCKLIN UNIFIED SCHOOL DISTRICT NOTE TO REQUIRED SUPPLEMENTARY INFORMATION June 30, 2020

#### **NOTE 1 – PURPOSE OF SCHEDULES**

#### A - Budgetary Comparison Schedule

The District employs budget control by object codes and by individual appropriation accounts. Budgets are prepared on the modified accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America as prescribed by the Governmental Accounting Standards Board. The budgets are revised during the year by the Board of Education to provide for revised priorities. Expenditures cannot legally exceed appropriations by major object code. The originally adopted and final revised budgets for the General Fund are presented as Required Supplementary Information. The basis of budgeting is the same as GAAP.

#### B - Schedule of Changes in Net OPEB Liability and Related Ratios

The Schedule of Changes in Net OPEB Liability presents multi-year information which illustrates the changes in the net OPEB liability for each year presented.

#### C - Schedule of the District's Contributions - OPEB

The Schedule of District Contributions is presented to illustrate the District's required contributions relating to the OPEB. There is a requirement to show information for 10 years. However, until a full 10- year trend is compiled, governments should present information for those years for which information is available.

#### D - Schedule of Money-Weighted Rate of Return on OPEB Plan Investments

The Schedule of Money-Weighted Rate of Return (MWRR) on OPEB Plan Investments presents multiyear information for the MWRR associated with the OPEB trust.

#### E - Schedule of the District's Proportionate Share of the Net Pension Liability

The Schedule of the District's Proportionate Share of the Net Pension Liability is presented to illustrate the elements of the District's Net Pension Liability. There is a requirement to show information for 10 years. However, until a full 10-year trend is compiled, governments should present information for those years for which information is available.

#### F - Schedule of the District's Contributions

The Schedule of District Contributions is presented to illustrate the District's required contributions relating to the pensions. There is a requirement to show information for 10 years. However, until a full 10-year trend is compiled, governments should present information for those years for which information is available.

#### G - Changes of Benefit Terms

There are no changes in benefit terms reported in the Required Supplementary Information.

The General Fund fund balance has decreased by \$886,454 over the past three years. The fiscal year 2020-21 budget projects a decrease of \$3,020,236. For a district this size, the state recommends available reserves of at least 3% of total General Fund expenditures, transfers out, and other uses. For the year ended June 30, 2020, the District has met this requirement.

The District has incurred operating deficits in two of the past three years, and anticipates incurring a deficit during the 2020-21 fiscal year.

Total long-term liabilities have increased by \$27,801,572 over the past two years.

Average daily attendance has increased by 221 over the past two years. The District anticipates no change of ADA for the 2020-21 fiscal year.

#### ROCKLIN UNIFIED SCHOOL DISTRICT NOTES TO SUPPLEMENTARY INFORMATION June 30, 2020

#### **NOTE 1 – PURPOSE OF SCHEDULES**

- A <u>Schedule of Average Daily Attendance</u>: Average daily attendance is a measurement of the number of pupils attending classes of the District. The purpose of attendance accounting from a fiscal standpoint is to provide the basis on which apportionments of state funds are made to school districts. This schedule provides information regarding the attendance of students at various grade levels and in different programs.
- B <u>Schedule of Instructional Time</u>: The District has received incentive funding for increasing instructional time as provided by the Incentives for Longer Instructional Day. The District neither met nor exceeded its target funding. This schedule presents information on the amount of instructional time offered by the District, and whether the District complied with the provisions of Education Code Sections 46201 through 46206. The District submitted a COVID-19 School Closure Certification with the State Superintendent of Public Instruction (SSPI) in connection with the effected school days impacted by COVID-19. The Certification was submitted to the SSPI on June 26, 2020 for the District and on July 22, 2020 for the Rocklin Independent Charter Academy.
- C <u>Schedule of Expenditure of Federal Awards</u>: The Schedule of Expenditure of Federal Awards includes the federal award activity of Rocklin Unified School District, and is presented on the accrual basis of accounting. The information in this schedule is presented in accordance with the requirements of Title 2 U.S. Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards (Uniform Guidance). Expenditures are recognized following the cost principles contained in the Uniform Guidance, wherein certain types of expenditures are not allowable or are limited as to reimbursement. The District has elected not to use the 10-percent de minimis indirect cost rate allowed un the Uniform Guidance.

The following schedule provides a reconciliation between revenues reported on the Statement of Revenues, Expenditures and Change in Fund Balances and the related expenditures reported on the Schedule of Expenditure of Federal Awards. The reconciling amounts represent Federal funds that have been recorded as revenues that have not been expended by June 30, 2020.

#### Management's Responsibility

Management is responsible for compliance with the requirements of state laws and regulations, as listed above.

#### Auditor's Responsibility

Our responsibility is to express an opinion on Rocklin Unified School District's compliance with state laws and regulations as listed above based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the 2019-20 Guide for Annual Audits of K-12 Local Education Agencies and State Compliance Reporting (Audit Guide). Those standards and the Audit Guide require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the compliance requirements referred to above that could have a material effect on Rocklin Unified School District's compliance with the state laws and regulations listed above occurred. An audit includes examining, on a test basis, evidence about Rocklin Unified School District's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance with state laws and regulations. However, our audit does not provide a legal determination of Rocklin Unified School District's compliance.

#### Basis for Qualified Opinion on Compliance with State Laws and Regulations

As described in Finding 2020-001 in the accompanying Schedule of Audit Findings and Questioned Costs, Rocklin Unified School District did not comply with requirements regarding School Accountability Report Card. Compliance with such requirement is necessary, in our opinion, for Rocklin Unified School District to comply with the requirements applicable to the state laws and regulations applicable to the state laws and regulations referred to above.

#### **Qualified Opinion on Compliance with State Laws and Regulations**

In our opinion, except for the noncompliance described in the Basis for Qualified Opinion paragraph, Rocklin Unified School District complied, in all material respects, with the compliance requirements referred to above that are applicable to the state laws and regulations referred to above for the year ended June 30, 2020.

#### **Other Matter**

Rocklin Unified School District's response to the noncompliance finding identified in our audit is described in the accompanying Schedule of Audit Findings and Questioned Costs. Rocklin Unified School District's response was not subjected to the auditing procedures applied in the audit of compliance and, accordingly, we express no opinion on it.

#### **Purpose of this Report**

The purpose of this report on compliance is solely to describe the scope of our testing of compliance and the results of that testing based on the requirements of the State of California's 2019-20 Guide for Annual Audits of K-12 Local Education Agencies and State Compliance Reporting. Accordingly, this report is not suitable for any other purpose.

# INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

Board of Trustees Rocklin Unified School District Rocklin, California

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of Rocklin Unified School District as of and for the year ended June 30, 2020, and the related notes to the financial statements, which collectively comprise Rocklin Unified School District's basic financial statements, and have issued our report thereon dated December 10, 2020.

#### **Internal Control over Financial Reporting**

In planning and performing our audit of the financial statements, we considered Rocklin Unified School District's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of Rocklin Unified School District's internal control. Accordingly, we do not express an opinion on the effectiveness of Rocklin Unified School District's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

#### **Compliance and Other Matters**

As part of obtaining reasonable assurance about whether Rocklin Unified School District's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

#### **Purpose of this Report**

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

#### INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE FOR EACH MAJOR FEDERAL PROGRAM AND REPORT ON INTERNAL CONTROL OVER COMPLIANCE

Board of Education Rocklin Unified School District Rocklin, California

#### Report on Compliance for Each Major Federal Program

We have audited Rocklin Unified School District's compliance with the types of compliance requirements described in the *OMB Compliance Supplement* that could have a direct and material effect on each of Rocklin Unified School District's major federal programs for the year ended June 30, 2020. Rocklin Unified School District's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

#### Management's Responsibility

Management is responsible for compliance with federal statues, regulations, and the terms and conditions of its federal awards applicable to its federal programs.

#### Auditor's Responsibility

Our responsibility is to express an opinion on compliance for each of Rocklin Unified School District's major federal programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. Code of Federal Regulations Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Those standards and the Uniform Guidance require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about Rocklin Unified School District's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each of the major federal programs. However, our audit does not provide a legal determination of Rocklin Unified School District's compliance.

#### Opinion on Each Major Federal Program

In our opinion, Rocklin Unified School District complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2020.

#### Report on Internal Control Over Compliance

Management of Rocklin Unified School District is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered Rocklin Unified School District's internal control over compliance with the types of requirements that could have a direct and material effect on each major federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal program and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of Rocklin Unified School District's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A material weakness in internal control over compliance is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A significant deficiency in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

#### 2020-001 STATE COMPLIANCE - SCHOOL ACCOUNTABILITY REPORT CARD (72000)

#### Criteria or Specific Requirement

Education Code Section 33126(b)(8) states that the school accountability report card shall include, but is not limited to, assessment of the following school conditions: (8) Safety, cleanliness, and adequacy of school facilities, including any needed maintenance to ensure good repair as specified in Section 17014, Section 17032.5, subdivision (a) of Section 17070.75, and subdivision (b) of Section 17089.

#### Condition

Every year, the District is required to assess eight attributes of each school site regarding the condition of the site facilities on the Facility Inspection Tool (FIT). These attributes include Systems, Interior, Cleanliness, Electrical, Restrooms/Fountains, Safety, Structural and External. A ranking of Good, Fair or Poor is assigned to the eight different attributes. These rankings are then transferred and posted on each school site's School Accountability Report Card. At the following sites, Breen Elementary, Rocklin Elementary, Springview Middle, and Whitney High School, one or more attribute on the school accountability report card (SARC) was not consistent with the information on the Facility Inspection Tool (FIT) for the site.

#### Context

We performed the audit procedures enumerated in the State of California 2019-20 Guide for Annual Audits of K-12 Local Education Agencies and State Compliance Reporting and identified the finding described above.

#### Effect

The District is not in compliance with Education Code 33126(b)(8) due to the inconsistency noted.

#### <u>Cause</u>

The cause of the finding is the District improperly updated the school accountability report card for the site indicating the attributes as follows:

School and Attribute	Reported FIT Rating	Reported SARC Rating
Breen Elementary – Interior	Fair	Good
Rocklin Elementary - Systems	Good	Fair
Rocklin Elementary – Cleanliness	Good	Fair
Rocklin Elementary – Restrooms/Fountains	Good	Fair
Springview Middle: Interior	Fair	Good
Whitney High: Interior	Poor	Fair

#### SECTION IV - STATE AWARD FINDINGS AND QUESTIONED COSTS

# 2020-001 STATE COMPLIANCE - SCHOOL ACCOUNTABILITY REPORT CARD (72000) (Continued)

#### Recommendation

The District should ensure the school accountability report cards are completed appropriately based on the information of the most recent Facility Inspection Tool.

#### Views of Responsible Officials and Planned Corrective Actions

The Facilities Inspection Tool (FIT) reports for each school site were completed properly and timely. A data input error occurred while transferring the data from the FIT reports into the School Accountability Report Cards. The District agrees with the auditor's recommendation. The School Accountability Report Cards have been corrected to match the FIT reports as of the date of the report.
