

# Logging Into the Rocklin Unified BYOD/Guest Network

Select the BYOD/Guest Network to get signed on:

- Students & Staff simply put in their Username and Password.
- Ex: john.smith - DO NOT use @rocklinusd.org at the end
  - *Note: if you use a windows or Chromebook as a personal device, your authentication will last 30 days. MACBOOKS and Apple products generate a new MAC address every 24 hours and will need to authenticate each day.*

**RUSD Guest Wi-Fi**

If you are a District Employee or Student, log in with your District credentials.

**Requires both text & email**

Visitors & Guests will receive a text code to access. Visitors & Guests must log in using the code and information sent to them.

- Email address will be the username
- Password will be the CODE sent via text message

A screenshot of a Wi-Fi login interface. At the top, there is a small icon of a house with a chimney. Below the icon, the text "RUSD Guest Wi-Fi" is displayed, with "RUSD Guest" in white and "Wi-Fi" in orange. Underneath, a line of text reads "Please login to the network using your username and password." There are two white input fields: the first is labeled "Username" and the second is labeled "Password". The background of the interface is dark gray, and the entire screen is set against a light blue and white background that looks like a window view.
