

Speed. Reliability. Guaranteed.

Dedicated to your Success.

Between virtual meetings and increased data transfers among locations and remote employees, many businesses today need more reliable network connectivity to support their applications. As your business grows, using faster download than upload speeds may no longer be an option. You also may need internet connectivity with predictive latency, high reliability, and tight security with service level and speed guarantees to ensure the least disruption to your business.

Dedicated Internet Access (DIA) from Astound Business Solutions connects you to the Internet using our carrier-grade fiber network. It provides a continuous, permanent set amount of high-bandwidth connectivity with guaranteed up-time. You are protected by full SLAs that provide safeguards for outages, repair times, and network performance. With symmetrical upload and download speeds you can support different configurations, services, and applications that standard bandwidth plans cannot handle.

Key Benefits and Results:

Symmetrical Speeds

For more efficient connectivity.

Guaranteed Service Levels

Predictive latency, high reliability.

Speed

Dedicated access connects directly to the Internet.

Scalable

Easily upgrade bandwidth.

Security

Increased security with a private network connection.

DEDICATED INTERNET ACCESS (DIA)

Fast, Secure Connections from Astound

Our Dedicated Internet Access enables mission-critical business activities by connecting your business directly to the internet when you need:

- Dedicated, reserved, symmetrical high-bandwidth internet speed
- Secure connections with guaranteed up-time and always-on connectivity
- Scalable solutions

Dedicated Internet Access (DIA) is a great fit for businesses that:

- Use or host cloud-based applications
- Require dedicated bandwidth
- Need high-bandwidth upload and/or download capability

Why Choose Astound Business Solutions:

We are a national fiber solutions provider dedicated to delivering reliable and secure connectivity to mission-critical applications, along with best-in-class support. We're in eight of the top 10 metro markets throughout the United States. With over 30,000 route miles servicing more than 14,000 on-net buildings, we cover 12 states and more than 20 metro areas to help give you the connectivity solutions you need.

Fiber-Rich Network Delivers Superior Uptime – We operate a sophisticated network with a backbone featuring a smaller node size and robust fiber capacity.

Award Winning Customer Service – You can rest assured the person on the other end of the support call understands your business, local market, and urgency to solve your concern. We are dedicated to minimizing any impact on your business.

Custom, Robust Solutions – We take a consultative approach by first understanding your distinctive needs to deliver a unique solution designed especially for you.

Speed to Market – Unlike larger competitors, we focus on rapid installations and upgrades, and do not rely on third parties to meet deadlines.
