RE: 470 #230002103

Dear Barbara Patterson,

On behalf of AT&T, I thank Rocklin Unified School District for the opportunity to respond to your E-Rate 470 Request For Pricing.

The AT&T family of companies has been participating in the E-Rate program for schools and libraries since the program's inception and can provide a complete range of E-Rate-eligible services to assure your schools and libraries are connected. We're proud to bring our telecommunications expertise and knowledge of the E-Rate program to your school or library, helping to ensure that all eligible K-12 schools and public libraries have affordable access to advanced telecommunications services.

Society's need for connection is only growing – and providing those connections is in AT&T's DNA. Ever since Alexander Graham Bell's telephone more than 145 years ago, we've been a leader in connecting people and businesses.

Connectivity technologies like fiber and 5G will be part of what enables the best customer experience. Just as important to the experience is how artificial intelligence and machine learning, cybersecurity, edge computing, software and cloud technologies factor into any business, organization or consumers' lives. This is what drives AT&T, as we work to build the newest technologies and impact the world for better.

AT&T is working with the public sector to transform the business of government by bringing together solutions that help protect, serve and connect. We're helping government customers across federal, state, local and international markets modernize the way they operate. And we're helping advance K-12 and higher education institutions. All to help make your community safer, smarter and stronger.

Based upon your 470 request, we are proposing the following service(s) specific to this response:

➤ **AT&T Switched Ethernet on Demand (ASEoD) – Pacific Telephone SLD SPIN 143002665**

Please note:

The information and pricing contained in this proposal is valid for the funding period known as E-Rate Funding Year 2023. Rates provided in this response do not include applicable taxes, surcharges or fees.

This response to your request **does not** take the place of a signed contract. Should you select AT&T for this service, please let us know so we can provide you the appropriate contract(s). We will need to have executed contracts prior to the close of the 471 filing date. Delays in signing required contracts may impact SLD funding as well as due date intervals.

We look forward to the opportunity to work with you. Please do not hesitate to contact us for assistance at any time.

Sincerely,
Phil Mallon
